Department of Mechanical Engineering

Guest Lecture:	Entrepreneurship on CNC Machines
Name of the Guest Speaker:	Mr. Dinesh Kapoor
Designation:	Owner
Organization/Institution:	VDA Technologies
Date:	27/09/2017
Time:	11.00 am Onwards

Programme Summary/Details:

The Department of Mechanical Engineering organized a guest lecture on "Entrepreneurship on CNC Machines." The lecture aimed to inspire students and provide them with insights into starting their own ventures in the field of Computer Numerical Control (CNC) machines. During the lecture, the guest speaker shared their entrepreneurial journey and experiences in the CNC machine industry. They discussed the various opportunities and challenges in establishing and running a successful CNC machine business. The lecture focused on the key aspects of entrepreneurship, including market analysis, business planning, financial management, and marketing strategies specific to the CNC machine industry. The guest speaker emphasized the importance of identifying niche markets, understanding customer needs, and delivering high-quality products and services. Participants gained insights into the technical aspects of CNC machines, such as machine selection, programming, and operations. They learned about the different applications of CNC machines in industries such as manufacturing, prototyping, and automation. The lecture also highlighted the significance of innovation and continuous learning in the entrepreneurial journey. Participants were encouraged to explore new technologies, stay updated with industry trends, and collaborate with other professionals in the field.
