Department of Mechanical Engineering

3 Days Student Workshop:	Advanced Ansys
Name of the Guest Speaker:	Mr. Ashish Vajir
Designation:	Owner
Organization/Institution:	Shirsh Technosolutions
Date:	4 to 6 October 2019
Time:	10.00 am Onwards

Programme Summary/Details:

The Department of Mechanical Engineering organized a student workshop on Advanced Ansys. The workshop covered various topics, including an introduction to Ansys, 2D and 3D simulations, line models, modal analysis, and thermal analysis. Students were provided with hands-on training and practical exercises to enhance their understanding and proficiency in utilizing Ansys for advanced engineering simulations. The workshop focused on enabling students to analyze and solve complex engineering problems using Ansys software. By exploring advanced features of Ansys, students gained insights into optimizing designs, improving product performance, and ensuring robustness in engineering applications. The workshop offered a valuable opportunity for students to enhance their skills in using Ansys for advanced simulations and provided a solid foundation for their future endeavors in the field of mechanical engineering.
