Programme Summary/Details: The VIVA Institute of Technology organized a one-week online faculty development program on "Development of e-content and Online Assessment" to equip faculty members with the skills and knowledge to effectively deliver e-content and online assessments. The program covered various topics such as e-content development, online assessment design, tools and techniques for effective e-learning, and best practices for online teaching and learning.

Experienced professionals and subject matter experts conducted the sessions and provided participants with practical insights and solutions to overcome the challenges of online teaching and learning. The participants actively engaged in discussions, group activities, and interactive sessions, and they received hands-on training on using various e-learning tools and platforms, which helped them to develop their e-content and online assessments effectively.

The program was a success, and the participants provided positive feedback, expressing their gratitude towards the organizers and trainers for providing them with a valuable learning experience. Overall, the one-week online faculty development program on "Development of e-content and Online Assessment" was well-organized and informative, providing participants with the necessary skills and knowledge to develop and deliver effective e-content and online assessments. The VIVA Institute of Technology is commended for organizing this valuable program, and we look forward to more such programs in the future.
