Programme Summary/ Details: It was organized with the focus to transfer the knowledge directly from the people who mastered the technologies to the grooming students of VIT. A total of 108 students from seventh semester Civil Engineering have attended the lecture and gained information on the modern and accepted practice in the market regarding the valuation and estimation process. The lecture was well organized with the start from the need of theoretical knowledge and how to bridge the gap between the theoretical knowledge and practical world. It was then taken through the International Standards followed in the field of Civil Engineering. Then comes the objective of this talk, on "Tendering and Valuation" ways of overcoming these difficulties were also delivered by the speaker. Trouble shooting procedures for each and every component in this topic were touched up on by the expert.
