Department of Mechanical Engineering

Event Name:	ATVC 2020
Location:	Vadodara
Participating Team Name:	TEAM ARIES
Vehicle No:	#E53
Date:	15-19 Feb, 2020
Time:	10.00 Onwards

Programme Summary/Details:

The highly anticipated ATVC Season 3 took place in Vadodara, Gujarat, from February 15th to 19th, 2020, attracting participation from 87 renowned colleges across the country. This event served as a platform for over 2000 engineering students from various streams to showcase their technical expertise and design skills. Throughout the event, the participants underwent a rigorous series of 22 tests, each designed to assess different aspects of their vehicles' performance. These tests included the maneuverability test, endurance test, acceleration and brake test, innovation test, and cost evaluation. The challenging nature of these tests pushed the teams to showcase their engineering prowess and innovative solutions. Among the impressive array of participating teams, the team from VIVA Institute of Technology stood out with their exceptional performance. They secured the coveted 1st rank in the Mega Marketing round, highlighting their ability to effectively market and promote their vehicle. This achievement demonstrated their understanding of not only engineering principles but also the importance of presenting their product in the best possible light. In addition to their success in the Mega Marketing round, the team from VIVA Institute of Technology attained an admirable 12th rank overall. This achievement showcases their consistent performance across the various tests and categories throughout the event. The success of the team from VIVA Institute of Technology is a testament to their hard work, dedication, and technical expertise. Their ability to excel in both technical aspects and marketing underscores their well-rounded approach to the competition. Overall, ATVC Season 3 was a resounding success, providing a platform for engineering students from across the country to display their skills and compete at the highest level. The event served as a valuable learning experience and a chance for participants to showcase their talent and innovation in the field of automotive engineering.
