Time:	10:am onwards

Industry visited Summary/Details: Electrical Engineering Department of VIVA Institute of Technology, we would like to extend heartfelt appreciation for time and effort given by ISRO for conducting one day visit on 27th March 2018 at INDIAN SPACE RESEARCH ORGANIZATION, Ahmedabad on introductory knowledge, components details, functions, merits and demerits of each device used in ISRO. The time dedicated to the event is highly appreciated, not only by students but also by the teachers who attended. The Indian space Programme was driven by the vision of Vikram Sarabhai, considered the father of the Indian Space Programme. Space Applications Centre (SAC) is one of the major Centre's of the Indian Space Research Organization (ISRO). SAC focuses on the design of space-borne instruments for ISRO missions and development and operationalization of applications of space technology for social benefits. The applications cover communication, broadcasting, navigation, disaster monitoring, meteorology, oceanography, environment monitoring and natural resources survey. It is managed by the Department of Space, which reports directly to the Prime Minister of India. Finally we leaved the place at 4:30 pm and concluded the visit.
