Time: 9:00 AM to 10:00 AM

Venue: Virtual, Google Meet

The CSI-VIVA successfully organized the event Webinar on UI/UX at the Computer Engineering Department, VIVA Institute of Technology. The event was conducted by B.E Student Mr. Aashish Jethwa, who was very knowledgeable about the process involved in UI/UX Development and was attended by Computer Engineering students. The event was conducted to encourage students and to improve their technical and general knowledge on platforms used for UI/UX Development i.e Figma.

He covered Figma from the very basics, starting by explaining to the students, the complete Interface of Figma, also covering various other elements such as Frame Selection and manipulation, and the complete overview and use of Figma Plug-ins, while also explaining Colour Science behind the colors chosen in most UI, along with teaching the implementation of Responsive Pages and Animation. Finally, discussions on how Figma designs can be translated to FlutLab Projects were done. There was a large participation from students of S.E, T.E and B.E Computer Engineering.
