Industrial Visit: AscenTech

PERMISSION LETTER

Permission to visit your Industry for students of engineering `External`

CSI -VIVA <csi.comps@viva-technology.org>
to admin, ketan.j ▾

Feb 2, 2023, 2:33 PM

Dear Sir,

We, the Committee of CSI_VIVA TECH, Computer engineering Department, VIVA Institute of Technology, Virar (E), want to conduct an official Industrial Visit for Third Year and Final Year students of engineering.

The IV has been initiated under CSI_VIVA TECH. Approximately 40-50 students and 2-3 staff members will be coming for the industrial visit. Seeking your permission to conduct an industrial visit to your reputed company on 04th February 2023, Saturday.

This visit aims to make students understand the real-world industry process and how things get implemented. We intend to take a round of the entire industry and show the tasks handled in different departments. We hope you will respond to this request.

Kindly grant us permission for the industrial visit and make the necessary arrangements for the same.

Thank you,

CSI VIVA-TECH,

Computer Engineering Department,

VIVA Institute of Technology, Virar (E)

CSI -VIVA
Dear Sir, Attaching the list of students here for tomorrow's Industrial Visit. Please let us know if any data is required. Thank You. Regards.

Report on Industrial Visit (AscentTech)-2022-23

Date: 4th FEBRUARY 2023

Time: 10.00 AM onwards

Venue: ASCENT TECH

Event: Industrial Visit- Ascent Tech

The CSI-VIVA successfully organized the Industrial Visit at "**ASCENT TECH**" Virat Nagar, Virar West, Virar . A software company industrial visit is an opportunity for students or professionals to visit a software development company and learn about its operations, technologies, and practices. During the visit, students observe the company's software development process, learn about the software development life cycle, and gain insights into the latest software development technologies and tools used by the company. The industrial visit to a Ascent Tech typically starts with a presentation by a company representative, who introduces the company's products, services, and technologies. Students then interact with the company's technical staff and learn about their roles, responsibilities, and work environment.

Students also observe the company's software development process, including requirements gathering, software design, coding, testing, and deployment. They learn about the various software development methodologies used by the company, such as Agile, Scrum, or Waterfall, and how they are applied in practice. The industrial visit may also include a visit to the company's research and development lab, where participants can observe the company's ongoing software research projects and learn about the latest trends and innovations in the software development industry.

Overall, an industrial visit to an Ascent Tech company can provide valuable insights into the software development process, latest technologies, and best practices. It helps students and professionals gain practical knowledge and exposure to the software development industry, potentially opening up career opportunities in the field.

Overall it was an Informative Industrial Visit.

Thanking You

Pranav Telangade
CSI Chairman
