<b>Date:</b>	<b>15th February 2019</b>
<b>Time:</b>	<b>10.00 am Onwards</b>
<b>Number of Students:</b>	<b>35</b>

**Programme Summary/Details:** The Electronics and telecommunication engineering department of Viva Institute of Technology organized an online guest lecture on 15<sup>th</sup> February 2019, focusing on Database Management System. The lecture was conducted by Mr. Suman Yemula. The session began with an overview of how a database management system is a software platform that helps you store and organize data. It creates a single centralized data source that can be used by stakeholders across departments. It combines the capabilities of data manipulation, analytics, and reporting to ensure better use of key data points. The guest speaker highlighted the relevance on the fact that Careers in database management include opportunities in finance, information technology, and marketing. He provided insights into how students can pursue a career in growing industry, discussing the necessary steps and requirements. Total 35 students were present for this session.
