On behalf of the Department of Mechanical Engineering at the University of Minnesota, I am delighted to inform you that we have recommended your admission to the Master of Science program in mechanical engineering beginning in the Fall Semester of 2022. An official letter of acceptance will be sent by the Graduate School. On behalf of the entire faculty of our Department, please accept my warmest congratulations for your outstanding record and accomplishments! We look forward to welcoming you to our Department, and to helping you launch an exciting and rewarding graduate career.

You have been admitted to our Master of Science in Mechanical Engineering (MSME) Program with the option to select either the thesis based (Plan A, 4+ semesters), project based or course based (Plan C, 3 semesters) option for your degree. The specific degree requirements for each type of MSME degree are noted in our graduate student handbook:

https://drive.google.com/file/d/1p19QSaXVH_8IzXVMJnpzRTOziD56eAnW/view

A list of suggested courses for first year MSME students interested in specializing in one of 5 sub-areas of mechanical engineering is also available on our department website:

<https://drive.google.com/file/d/15gcTpBNPjoHcadbrQVksxxF0FuZrJMiO/view>

As you may know, the University of Minnesota is one of the only large (>40,000 students) Carnegie R1 “very high research activity” Universities in the United States that is located in one of the 20 largest metropolitan areas of the United States. The Department of Mechanical Engineering has one of the foremost mechanical engineering graduate programs in the world, with notable strengths in *biosystems & bioengineering, combustion & engines, fluid mechanics, fluid power, materials & mechanics, particle technology, plasmas, sensing & controls, and thermodynamics & heat transfer*. The most recent Assessment of Doctoral Programs performed by the National Research Council ranked the department as high as 7th out of 163 mechanical engineering doctoral programs in the United States by its “R-ranking”. This ranking is rigorously determined, based upon the research output of our faculty and graduate students.

While we are not able to directly offer you financial support for your MSME degree at this time. Should you choose to join the University of Minnesota Mechanical Engineering department, you would have the option to apply for open research assistantships (RA) and teaching assistantships (TA) in the department. We note, however, that we have more graduate students in the department than available assistantship positions. We also note that many of our MSME students (both US citizens and Visa holders) complete paid internships in the Twin Cities area and around the United States while in our MSME program. The annual University of Minnesota Career

Fair provides an excellent opportunity to apply for engineering internships at a wide variety of companies.

We will be holding a **virtual recruiting event in March**. More details will be sent by Mr. John Gardner, our graduate program manager. During the recruiting event, you will have an opportunity to explore research opportunities in the department, meet faculty members, and interact with current graduate students as well as other prospective students from around the world.

My colleagues and I hope that you will join us in the Fall 2022 and we are certain that your graduate career will flourish at the University of Minnesota. We would appreciate your response to our offer as soon as you have reached a decision. By agreement of the Council of Graduate Schools, commitments should be made by April 15 for entrance in August 2022. An acceptance before this date is not binding, but it would help us in our planning. If you accept, please sign below and return this letter to us, keeping one copy for your records. Please notify John Gardner, by e-mail to gardn032@umn.edu of your decision. You may return the signed letter by e-mail, attaching it as a pdf, or by regular mail as long as you have notified us by April 15.

On a personal note, I do hope you choose the University of Minnesota for your graduate studies, I am proud of our graduate program and our University, and I believe you will be a valuable addition to our team of students, faculty, and staff. If you have any questions about our graduate program or the Twin Cities area, please feel free to email me at vandeven@umn.edu or visit our website at <https://cse.umn.edu/me/academics/graduate>

Dear Nihar,

Welcome to Kettering University! Congratulations on your official acceptance to the MS in Engineering - MEN Mobility Systems program for Fall 2022. In order to ensure your success you will be required to complete the following foundation courses: ECE601: Principles for Mobility Systems, IME601: Principles for Mobility Systems, and MECH601 Principles for Mobility Systems.

Kettering University is a global leader in applied research, mobility, and automotive technology. The faculty at Kettering are world-class, actively engaged in research, and perfectly-suited to train the engineers and tech-savvy business leaders of the future.

As a graduate student at Kettering University, you will have access to cutting-edge research instrumentation and facilities. Within the campus footprint, Kettering University has constructed the 21-acre state-of-the-art GM Mobility Research Center. This facility can be utilized for numerous dynamic testing measurements and, combined with a dedicated wireless cellular research network, it is ideal for V2X development and testing. There is also an industry recognized crash lab facility giving Kettering University a truly unique research capability. Since 2012, Kettering faculty have received twelve Major Research Instrumental awards from the National Science Foundation, more than any other Michigan-based institution of higher education in this period.

A Kettering graduate education is designed to not only prepare you for a productive career but also provide a transformational life experience. Imagine participating in an industrial or government-funded research project, working as a full-time paid intern with one of Kettering's leading industrial partners, being part of a student-led competition such as the AutoDrive Challenge, and networking with Kettering alumni, many of who (1000+) are currently serving as C-level executives.

Funding your graduate education has never been easier. In addition to optional paid Graduate Internships, Kettering University offers a number of financial resources and programs. The Graduate Assistantship (GA) program, for example, provides support in the form of teaching or research assistantships and stipends. Kettering Graduate Tuition scholarships are also available on a competitive basis to highly qualified students.

Welcome to Kettering University. As Graduate Dean, I look forward to seeing you on campus in the near future.

Sincerely,

Nihar Mhatre

Dear Nihar,

Congratulations!

You have been selected to receive a Level A Graduate Assistant (GA) appointment at Kettering University for the Fall 2022 term. This initial appointment includes a stipend of \$1,800, per term, commensurate with a 10 hour-per-week position. This appointment is renewable each term, given satisfactory performance (in both academics and your faculty support role) and continued availability of funds.

As a GA, your work assignment will be with an individual faculty member with duties such as grading, assisting the faculty member in their teaching/research lab, or supporting a student technical team. This appointment does require that you be a full time, on campus, student. In addition, you will be required to complete training modules offered by the Graduate School during your first term as a GA.

The goals of the GA program are multifold and include:

- Developing strong bonds between graduate students and faculty
- Supporting the research enterprise and instructional mission
- Preparing graduate students for productive careers
- Providing financial support for graduate students

You have also been selected to receive the Graduate Tuition Scholarship. This scholarship offers additional financial assistance to on-campus Kettering graduate students. The amount of this award is \$3,836, which is the cost of one 4-credit course.

We ask that you complete the visa process, if applicable. If you have any questions or need more information about our Kettering GA/Scholarship program, please contact us at gsr@kettering.edu

We are looking forward to seeing you on campus!

Dear Mr. CHINMAY RAJESH ARAIKAR:

Congratulations! It is my pleasure to offer you provisional admission to Clemson University's Graduate School for the MS program in Automotive Engineering for Fall 2021.

Our records indicate that we do not have official documentation confirming that you have received your degree(s). You must provide the Graduate School with final official transcripts for your bachelor's and any subsequent degrees. They must state the degree earned and date awarded. Additionally, for students enrolled at institutions outside of the United States, an official copy of a diploma or a degree certificate issued by the institution and showing receipt of all degrees and dates awarded may be needed, if not stated directly on the final official transcript. Please note that this provisional acceptance does not hinder you from registering for classes. However, your official documentation must be provided to the Graduate School before the end of your first semester of graduate study. A registration hold is placed on students who have not submitted all final-official transcripts.

We are very much interested in learning whether you plan to accept our offer of admission, so please indicate your decision to accept or decline our offer as soon as possible. You may do this through the application portal by clicking the "Complete Your Decision Form" button.

Specific questions regarding assistantships or fellowships, registration, and prerequisites should be directed to faculty and staff in the program. Please note that some graduate programs have academic or professional requirements or prerequisites. It is your responsibility to understand the requirements of the degree program as described in the graduate program handbook and to consult with the department if necessary to verify satisfaction of those requirements. Contact information for representatives of all graduate programs is available at: <http://www.clemson.edu/graduate/academics/program-contacts.html>.

Enrollment at Clemson University is contingent upon verification of your lawful presence in the United States, pursuant to South Carolina Code of Laws, Section 59-101-430. II.

Please keep this certificate in case you need to present it to the authorities in the next few years. Duplicates cannot be issued as all documents will be destroyed or deleted for data protection purposes.
