CIRCULAR

Initiatives for Green Campus are as under:

The institutional initiatives for greening the campus are as follows:

- Restricted Entry of automobiles in campus
- Pedestrian Friendly pathways
- Ban on use of Plastics
- Landscaping with trees and plants
- Use of e-resources for sharing data/information among staff members and students

Steps taken for Green Campus

1. Restricted Entry of automobiles in campus

The entry of vehicles is restricted beyond parking spaces for students as well as staff members except in case of emergency. In this way, the noise levels in the Campus can be kept to the minimum.

2. Pedestrian Friendly pathways

Campus has adequate pedestrian friendly and safe pathways for all to commute at ease.

3. Ban on use of Plastics

Single-use plastic items such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among staff and students through orientation and display boards in the premises. To restrict the use of plastic, measures have been taken to replace plastic tea cups and glasses with steel glasses in the canteen. The staff and students are informed to use steel or copper water bottles instead of plastic bottles.

4. Landscaping with trees and plants

Landscaping of the college is worth seeing and reflects aesthetic sense. The institute has a canopy of trees and plants to make the environment pollution free.

5. Use of e-resources for sharing data/information among staff and students

The institute authorities are taking initiatives to make the campus paperless. Internal communication in the campus, through e-mail or e-messages, is driving towards a paperless office.

6. Unless and until hard copy is required, print is to be avoided which will save paper and environment.
