Department of Mechanical Engineering

Guest Lecture:	Product Development
Name of the Guest Speaker:	Mr. Kannan Reddiar
Designation:	Director
Organization/Institution:	Ryutek Technologies (OPC) Pvt. Ltd.
Date:	12/02/2020
Time:	1.30 pm Onwards

Programme Summary/Details:

The Department of Mechanical Engineering at Viva Institute of Technology in Virar organized a session on "Product Development" on February 12, 2020. The speaker used various videos during the session to enhance students' comprehension of production and manufacturing lines. Specifically, the videos showcasing car manufacturing and assembly lines provided a clear understanding of the utilization and significance of DELMIA software, as well as how it can improve production line efficiency. The speaker emphasized the importance of this application in today's automotive industries and highlighted the potential opportunities for students to secure positions in renowned companies such as Mercedes, Airbus, and Land Rover. Overall, this guest talk proved highly beneficial to the student community, enabling them to learn about the advanced simulation software DELMIA used in product manufacturing and processes.
