Department of Electrical Engineering

Industry Name:	Western Regional Load Dispatch Centre (WRLDC)
Name of the Expert Speaker:	Mr. Roselind Varghese
Designation:	Asst. G.M (H.R)
Organization/Institution:	Viva Institute of Technology
Date:	12/09/2019
Time:	10:am onwards

Industry visited Summary/Details: VIVA Institute of Technology had organized an Industrial visit on 12th September 2019 to POSOCO, Padghe. It was conducted for one day visit. Under the guidance of our Professor Mr.Mukeshkumar Mishra, Electrical Engineering Department POSOCO is a full government Company. It was separated from the power grid on 12th September 2019. It was a wholly-owned subsidiary of Power Grid Corporation of India Limited (PGCIL) till 2 January 2017. It was formed in March 2010 to handle the power management functions of PGCIL. It is responsible to ensure the integrated operation of the Grid in a reliable, efficient, and secure manner. It consists of 5 Regional Load Dispatch Centers and a National Load Dispatch Centre (NLDC). The subsidiary was eventually made a separate company, leaving the parent firm with only the task of setting up transmission links. Earlier handled by PGCIL, the load dispatch functions have now come up to POSOCO.

The educational visit was organized to raise awareness on the different types of load consumption by us and the effect of load on the power system.

Finally we leaved the place at 4:30 pm and concluded the visit.
