

Tree plantation Event.

2021

NSS. 18 July 2021:

NSS Volunteers of Viva Institute Technology organized an event on 'Tree Plantation' on the occasion of university foundation. Dya NSS cell decided to plant 1,00,000 saplings. The event took place on 18th July 2021. We were told to make a collage of pictures and post in our social handles of NSS unit of Viva Tech. Every Volunteer planted 415 saplings on that day in their nearby locality as the situation wasn't favorable because it was time of pandemic and students planted the saplings in society, home, college premises, etc. We organized this event in monsoon season, but as we plan, we will not be able to water the saplings daily and thus this event was appropriate to keep. Our 10 volunteers saplings and should their images through WhatsApp group after which our technical team made a collage of the pics and it was shared through our social handle to raise awareness. It was a very successful event and all volunteers participated in the event actively.

Thank you.
