Department of Mechanical Engineering

Industry Name:	Zenith Engineering
Place of Visit:	Vasai
Date of Visit:	5/10/2017
Time:	12:00 pm Onwards

Programme Summary/Details:

On October 5, 2017, a surprise industrial visit was organized for the third-year Mechanical Engineering students to Zenith Engineering Corporation located in Valiv, Vasai East, Thane. The visit aimed to provide students with practical exposure and insight into various processes, including blanking, punching, bending, welding, cooling, and painting. The students, accompanied by four faculty members (Mr. Pratik Raut, Mr. Tushar Mystery, Mr. Manoj Kumar Yadav, Mr. Shreeyesh), were instructed to reach the destination on their own by 10 am. Upon reaching the corporation, all the students gathered at the entrance where they were received by the company representatives. Attendance was taken by the respective class representatives, and the students were divided into four batches, each consisting of 35 students. The students were taken through various departments where they were given detailed explanations of the blanking, punching, bending, welding, cooling, and painting processes. The instructors dedicated their valuable time to ensuring that the students understood each process thoroughly. Both the company representatives and the students actively engaged in the visit. The company staff took the responsibility of making the processes and operations clear to the students, going the extra mile to facilitate their understanding. The industrial visit to Zenith Engineering Corporation on October 5, 2017, proved to be a fruitful experience for the third-year Mechanical Engineering students. They gained practical exposure and knowledge about the different processes involved in the manufacturing industry. The company representatives actively engaged with the students, addressing their doubts and ensuring clarity. The visit provided an excellent opportunity for the students to witness the real-world application of their theoretical knowledge. The students express their gratitude to the respected faculty members, the team at Zenith Engineering Corporation, as well as the Head of the Department and Principal for organizing and facilitating the industrial visit. They also requested more such visits in the future to enhance their practical training
