### **LANGUAGE LAB ACTIVITIES REPORT**

#### **ACADEMIC YEAR 2022-2023**

A crucial component of the engineering curriculum is English. It acts as a link between the years of formal education students had before entering the engineering field and their professional lives, which demand daily usage of English both during and after engineering. With this goal in mind, VIVA Institute of Technology's Language Lab is primarily used to help students become more proficient communicators in both formal and informal settings by acquainting them with the use of English in everyday scenarios. It teaches students how to improve their LSRW Skills and focuses on the generation and practice of language sounds.

To improve communication abilities and acquire the English language through practice Teachers of English encourage their pupils to take part in a variety of activities, such as debates, role plays, group discussions, and presentations. Teachers try to address three key skills in the language lab: conversational skills, communication skills, and pronunciation skills. In the course of their outstanding future endeavors, it also emphasizes employability skills including group discussion, debate, presentation, and interview abilities.
