Guest Lecture Report on Tenders and Contracts

Date : 23 October 2023.
Time : 11:00 am – 01:00 pm
Venue : Seminar Hall, Viva Institute of Technology.
Guest Lecturer : Mr. Abhijit Wasave
Organizer : Prof. Prashant Gondane

1. Introduction :
A guest lecture on **"Tenders and Contracts"** was held on 23 October,2023 at Seminar Hall, Viva Institute of Technology. This Informative session was organized by **Prof. Prashant Gondane** and featured an expert in the field, **Mr. Abhijit Wasave** , who shared valuable insights into the intricacies of tenders and contracts. Tenders and contracts are pivotal elements of modern business, and the lecture aimed to elucidate the concepts and best practices associated with them.

2. Key Points Discussed :-

2.1 Understanding Tenders :
The lecture began with an in-depth exploration of tenders, a crucial aspect of business operations. Key points highlighted during this section included:

1. Definition of Tenders : Tenders are formal offers submitted by suppliers or service providers in response to solicitations from prospective clients, which may be government entities, private companies, or organizations. These offers lay out the terms, conditions, and pricing for delivering goods or services.

Vishnu Waman Thakur Charitable Trust's
VIVA Institute of Technology
Approved by AICTE New Delhi, Recognized by DTE, Govt. of Maharashtra
And Affiliated to University of Mumbai
NAAC "B++" Grade

2. Types of Tenders : **Mr. Abhijit Wasave,** discussed the various categories of tenders, such as open tenders, selective tenders, and negotiated tenders. The lecture emphasized the advantages and disadvantages of each type and explained their common use cases.

3. Tendering Process : The lecturer provided a step-by-step overview of the tendering process, encompassing everything from the issuance of tender requests to the bid evaluation and the awarding of contracts.

2.2 The Significance of Contracts :

Transitioning to the topic of contracts, the guest lecturer explained the critical role they play in business transactions:

1. Definition of Contracts : A contract is a legally binding agreement between two or more parties that delineates the terms and conditions governing the delivery of goods or services. The lecture emphasized the necessity of clarity and specificity in contract terms.

2. Elements of a Contract : The lecturer detailed the essential components that render a contract legally valid, including offer and acceptance, consideration, legal capacity, and lawful purpose.

3. Types of Contracts : The lecture addressed various contract types, such as sales contracts, service contracts, and employment contracts, highlighting their distinctive features and typical applications.

2.3 Best Practices and Legal Considerations :

Mr. Abhijit Wasave, then proceeded to offer best practices for both tendering and contract management:

1. Preparing Winning Tenders : The lecture provided valuable insights into crafting compelling and competitive tenders. It emphasized the significance of understanding client requirements, creating clear and well-structured proposals, and demonstrating a track record of reliability.

2. Contract Management : The guest lecturer stressed the importance of efficient contract management. This included aspects like performance monitoring, risk management, and ensuring strict adherence to the contract's terms and conditions.

3. Legal Considerations : **Mr. Abhijit Wasave,** then highlighted the legal dimensions of tenders and contracts. He discussed dispute resolution mechanisms and underscored the importance of involving legal advisors to draft, review, and, if necessary, litigate contracts.

## 3.Practical Examples and Case Studies :

Throughout the lecture, **Mr. Abhijit Wasave** presented practical case studies and real-world examples to illustrate the concepts and best practices discussed. These examples helped attendees grasp the application of tendering and contract management principles in actual business scenarios, enriching their understanding of the subject matter.

4.Conclusion :

The guest lecture on **"Tenders and Contracts"** was an enlightening experience that shed light on two of the most vital aspects of contemporary business operations. Attendees gained valuable insights into the intricacies of tenders and contracts, and they left the lecture with a deeper understanding of the best practices and legal considerations associated with these topics. **Mr. Abhijit Wasave** ,offered a wealth of practical knowledge that will undoubtedly benefit participants in their professional endeavours. The event was an overall success, and the knowledge shared promises to have a positive impact on the business community.

To,

Mr. Abhijit Wasave,

Founder,

Aaradhya Associates,

Virar.

Sub: Letter of appreciation

Respected Sir,

      We are thankful to you for spending your valuable time and expertise on the topic **"Tenders and Contracts"** for our final year civil engineering students. All the students are very much delighted with your value adding session. We look forward for more such seminar, guidance and support in improving quality aspects in the subject.

Thanking You,

Yours Truly,

Prof. Lissy Jose
Head Of The Department
(Civil Engg.)

Department of Computer Science Engineering (AI &ML)

Event:	**Industrial Visit to BIS**
Place:	**Bureau of Indian Standard** **Western Regional Lab (WRL),** **Marol MIDC** **Mumbai- 400076**
Organization/Institution:	**VIVA Institute of technology, Virar**
Date:	**27 th March 2024**
Time:	**08:00 am onwards**

Visit Details:

The Department of CSE(AI&ML) Engineering of VIVA institute of technology organised industrial visit to **"Bureau of Indian Standard"** Western Regional Lab (WRL), Marol MIDC Mumbai- 400076. 30 students of II year CSE(AI&ML) department participated in the event. The industrial visit to company starts with a presentation by a company representative, who introduces the company's products, services, and technologies. Students then interact with the company's technical staff and learn about their roles, responsibilities, and work environment. It helps students and professionals gain practical knowledge and exposure to the industry, potentially opening up career opportunities in the field.

<div align="center">Bureau of Indian Standards</div>

➢ BIS was established in 1964. It comes under the Ministry of Consumer affairs.
➢ In Hindi we say it as BHARTIYA MANIK BUREAU.
➢ The job of BIS is to make Standards and do testing of products .
➢ It's head office is in Delhi.
➢ It has several regional branches across India.

Testing: BIS do testing in 4 types

- Chemical: In Chemical Section BIS do testing on products made by using chemicals Ex: beauty products.
- Electrical: In Electrical Section BIS do testing of Electrical appliances, Tubelight, Toy testing.
- Microbiology: In Microbiology Section BIS do testing of packed water, packed food.
- Mechanical: In mechanical section BIS do testing of LPG cylinder, Pressure cooker, Agriculture tools.

There are several Rooms available for testing the products:
• Incubation Room
• Sterilization Room
• BioSafety Room
• Fereral Assay lab

Activities:
    Hallmark, Consumer awareness, Standards, laboratory testing, Conformity assessment, Consumer protection.

Program Coordinator: Prof. Karishma Raut

Topic Name:	**Industrial Visit**
Name of the Guest Speaker:	**Krutik Patil**
Designation:	**SPC**
Organization/Institution:	**BIS Lab Andheri East**
Date:	**05/03/2024 & 28/03/2024**
Time:	**10.00 am Onwards**
Number of Students:	**58**

Programme summary:

The Bureau of Indian Standards (BIS) is the national standards body of India, working under the aegis of the Ministry of Consumer Affairs, Food & Public Distribution, Government of India. BIS is responsible for the development, maintenance, and promotion of standards across various sectors to ensure quality, safety, and efficiency of products and services. Our industrial visit to the BIS Laboratory provided an insightful experience into the world of standardization and quality control.

During the visit, we toured four labs within the BIS facility, each focusing on specific areas of testing and certification. The labs included: 1) Microbiology lab 2) Electrical lab 3) Mechanical lab 4) Chemical lab.

The Key Learnings Were We Witnessed practical applications of standards and quality control measures. Gained insights into the importance of standardization in ensuring product quality and safety and Learned about the testing procedures and equipment used in different types of laboratories. The industrial visit to the BIS Laboratory was a valuable experience, providing us with practical knowledge and insights into the processes involved in testing and certifying products. It highlighted the importance of standards in ensuring consumer safety and product quality, which will be beneficial for our future careers in the industry. It was insightful to visit BIS Lab Total 58 students with 5 faculty members visited.

Thanking you,

Student Correspondence

Subject: Appreciation Letter

Dear Sir,

VIVA Institute of Technology is very much thankful to **Bureau of Indian Standards, Marol MIDC** for granting permission to visit your esteemed organization on following days.
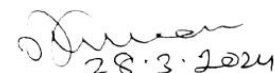

Date	No. of Students	Branch
5th March 2024	30	Electronics and Telecommunication Engineering
28th March 2024	24	Electronics and Telecommunication Engineering
	06	Electrical Engineering

This visit was value adding and our students will cherish your interaction and experience in their hearts.

We expect similar support in future too.

Thanking you.

Yours faithfully

28.3.2024

Department of Mechanical Engineering (BIS Standard Club)

Topic Name:	Presentations on standards
Name of the Coordinator:	Mr. Krutik Patil
Designation:	Field Coordinator
Organization/Institution:	Bureau of Indian Standards
Date:	25/01/2024
Time:	9.30 am onwards

Programme Summary/Details:

The Department of Mechanical Engineering recently organized an insightful guest lecture on the significance and applications of standards in engineering and industrial practices. The presentation was conducted by Mr. Krutik Patil, a field coordinator from the Bureau of Indian Standards (BIS).

The presentation by Mr. Krutik Patil provided valuable insights into the role and significance of standards in mechanical engineering. His expertise in BIS operations, standards development, and compliance processes helped students appreciate the impact of standards on the safety, quality, and efficiency of engineering products and processes. This session will undoubtedly contribute to students' academic growth and future professional success by emphasizing the importance of standardization in engineering. The added competition element further encouraged students to research and present on standards, fostering a deeper engagement with the subject. This session will undoubtedly contribute to students' academic growth and future professional success by emphasizing the importance of standardization in engineering.

Dear Sir,

This is to certify that your Electronics & Tele-Communication Eng. student **Bhavik Ravindra Patil** Enrolment No. **2022016402283087** has successfully completed our **4 weeks** Outhouse Internship Program.

He has been trained in the various departments, like mechanical assembly, soldering and wiring of the instruments, trouble shooting, designing and testing procedure of the electronic weighing machines and systems.

We hope he has learnt & gained maximum practical knowledge from us.

We thank you for giving us an opportunity to pay back the Nation and the community our experience and knowledge.

We wish him all the best for the future.

Topic Name: Faculty Industrial visit to Industrial Engineering Syndicate (INENSY)

Name of the Guest Speaker: Mrs. Pradnya Bhutada

Designation: Manager, HRD

Organization/Institution: VIVA Institute of Technology.

Date: 09/11/2023

Total no of staff: **09**

Programme summary:

     The visit was organized by VIVA institute of technology -EXTC faculties. Guest speaker sir took the session about Heavy earth moving equipment's, Tractors, Heavy & Light commercial vehicles. INENSY has been a part of the Auto-Electrical component industry for more than four decades. INENSY has a comprehensive portfolio of automotive switches for dashboards, engines, safety applications, illumination, automotive gadgets, automobile attachments and implements. High quality and zero defect products lies at the core of everything INENSY does. The session was fruitful and all the teaching staff gained a complete picture of how technology is working in the industrial front. This helped them to gain insight for enhancing their teaching skills.

Subject: Permission for Industrial Visit to INENSY, Nallasopara.

Dear Sir,

As a part of the curriculum, the staff are required to undertake Industrial Visits to a few industries of repute. We feel it will be fruitful that the faculties with academic background have a glimpse of the industry in order to have a better appreciation of practical applications of theory.

In the above background, we would like to send **07** staff of Electronics and Telecommunication Engineering branch to visit the following esteemed industry on **9th November 2023**

Sr. No.	Name of Industry	Adderss	Contact No. or email
1	**INENSY, Vasai**	**Survey no 374, Plot no 41, Apple Industrial Hub, Village Pelhar, Nallasopara East, Palghar - 401 208 India**	hrd@inensy.com 702483284- PRADNYA

I request you to kindly accord the necessary permission for the above visit and sanction the necessary financial assistant to the faculties.

Prof. Archana Ingle
H.O.D.(EXTC)

Department of Electronic & Telecommunication Engineering

Topic Name:	**Lecture on "How to Prepare for IT Job Opportunities"**
Name of the Guest Speaker:	**Shoeb Shaikh**
Designation:	**Head - Learning & Development	Automation Test Engineer**
Organization/Institution:	**TESTRIQ, Mira Road**
Date:	**6th September 2023**
Time:	**3:30pm to 4:30pm**

Programme Summary / Details:

On 6th September 2023 the department of ELECTRONICS AND TELECOMMUNICATION had organised a lecture on HOW TO PREPARE FOR IT JOB OPPORTUNITIES by Shoeb Shaikh , Head of QA lab , TESTRIQ Mira Road .

The lecture began with an overview of the IT industry's current landscape. Shoeb Shaikh sir highlighted the various domains within IT, including software development, cybersecurity, data analysis, and more. This introductory segment aimed to help attendees identify their specific interests and career goals within IT.

The speaker emphasized the importance of continuous skill development in the rapidly evolving IT field. Attendees were encouraged to identify the specific technical and soft skills required for their chosen IT domain. Suggestions were provided on how to stay updated with the latest industry trends and technologies through online courses, certifications, and networking.

Shoeb Shaikh sir provided valuable insights into crafting an effective IT resume. Attendees learned about the importance of tailoring their resumes to match job descriptions, highlighting relevant skills and experiences, and showcasing personal projects or open-source contributions. The lecture also stressed the significance of creating an appealing online presence, such as a LinkedIn profile and personal website.

The lecture dedicated a significant portion of time to interview preparation. Attendees were given tips on how to prepare for technical interviews, including practicing coding challenges and system design questions. Additionally, guidance was provided on mastering behavioural interviews by preparing compelling stories that demonstrate key competencies.

Shoeb Shaikh sir emphasized the value of networking in the IT industry. Attendees learned how to build professional networks through platforms like LinkedIn, attending conferences, and joining relevant forums or user groups. Strategies for effective job searching, including leveraging job boards, company websites, and professional connections, were also discussed.

The lecture concluded with a focus on soft skills and professionalism. Shoeb Shaikh sir highlighted the importance of effective communication, teamwork, problem-solving, and adaptability in the IT workplace. Attendees were encouraged to work on these skills alongside technical expertise.

The lecture concluded with an engaging Q&A session, where attendees had the opportunity to ask questions and seek clarifications on various topics related to IT job preparation.

Subject: Letter of Appreciation

Dear Sir,

We are really grateful to you for your valuable time and effort for delivering a session on **"How to prepare for IT Job Opportunities"** for our Electronics & Telecommunication Engineering students on **6th September 2023**. Your session was very informative, knowledgeable and motivating. Our students will cherish your value adding words in their hearts.

Hope for similar support in future too.

Thanking you.

Yours faithfully,

Principal

Report on Seminar(Data Science and Generative AI)-2023-24

Date: 13th FEBRUARY 2024

Time: 11.00 AM onwards

Venue: VIVA Institute of Technology

Event: Seminar on Data Science and Generative AI

Total Participants: 167

The CSI-VIVA successfully organized the seminar on **"Data Science and Generative AI"** at the Computer Engineering Department, VIVA Institute of Technology. The lecture was conducted by "Mr. Shoeb Shaikh and Miss. Esha Prakash". Shoeb Shaikh is a highly experienced professional with a Master of Engineering degree from Mumbai University and over 12 years of diverse experience across multiple fields. Presently, he holds the position of Automation Test Engineer and Learning and Development Head at Testriq QA lab, LLP. His expertise spans various domains, including Manual Testing, API Testing, Automation Testing, Data Science, and Machine Learning. He is deeply involved in ensuring the quality and efficiency of software testing processes while also spearheading initiatives for learning and development within the organization. Esha Prakash is a B.Tech graduate from SRM Chennai with six years of experience in the field of Data Science. She has a diverse professional background, having worked as a Data Scientist at LTI and as a Data Science expert for various renowned brands, including the Bombay Stock Exchange. Currently, Esha is associated with Testriq QA lab, LLP, where she oversees the Data Science and Data Analytics Department. Her domain interests include Big Data Analytics, Machine Learning, Natural Language Processing, Generative AI, Prompt Engineering, and Big Data. Additionally, Esha is an author and has written the book 'Love Peace Joy Light', available worldwide on Amazon as an eBook.

They covered all the points from the very basics, starting by explaining to the students about the importance of data science and generative AI .There was a large participation from students of S.E, T.E and B.E of Computer Engineering.

Overall it was an Informative Event.

Thanking You

CIVIL ENGINEERING DEPARTMENT

Date of Visit: 28/06/2024

Purpose: Site visit for

Participants: Faculty of Civil Engineering and Paresh Unnarkar & Associates

Venue:Virar(E)

Objective:

The purpose of this site visit was to evaluate the design and construction progress of the sewage treatment plant (STP) being developed for the hospital building. The visit aimed to assess the project's alignment with the design specifications, compliance with environmental standards, and overall progress toward completion.

Project Overview:

The sewage treatment plant is being constructed to manage the wastewater generated by the hospital building. The plant is designed to treat sewage to a level that meets regulatory standards before the treated effluent is safely discharged. The STP incorporates modern treatment technologies, including primary, secondary, and tertiary processes, to ensure efficient wastewater management.

Key Areas of Observation:

1. Site Layout and Infrastructure:

- **Site Preparation:** The site has been cleared and prepared for construction, with necessary excavation completed. The foundation work for the STP structures was observed to be in progress.

- **Structural Integrity:** Reinforcement work for the base of sedimentation tanks and other major structures was reviewed. The construction materials, including concrete and steel reinforcements, were found to be of high quality, meeting the design specifications.

- **Accessibility:** The site layout was inspected for accessibility, ensuring that all plant components are strategically positioned for efficient operation and maintenance.

2. Design Compliance:

- **Design Plans:** The design plans were reviewed, with a focus on alignment between the on-site construction and the architectural and engineering drawings. The site team was

adhering closely to the design specifications, with minor adjustments being made in consultation with the design engineers.

- **Capacity Considerations:** The design capacity of the plant was confirmed to be adequate for the anticipated sewage load from the hospital. Provisions have been made for future scalability, allowing for potential expansions as the hospital grows.

3. Construction Progress:

- **Foundation Work:** The foundation work for the main treatment units, including the primary clarifiers and aeration tanks, was observed to be progressing well. The use of high-strength concrete was noted, ensuring durability and long-term performance.

4. Coordination and Communication:

- **Stakeholder Engagement:** Regular coordination meetings between the design team, contractors, and hospital management were highlighted as a strength of the project. This ongoing communication ensures that any issues are promptly addressed and that the project remains on schedule.

- **Documentation:** The site team maintained thorough documentation of the construction process, including daily logs, inspection reports, and material quality certificates. This documentation will be valuable for future reference and audits.

Observations and Recommendations:

- **Quality Control:** The construction quality observed during the visit was generally high. However, the team recommended the continuation of stringent quality control measures, particularly as the project moves into more complex phases, such as the installation of treatment equipment.

- **Timely Completion:** The project is on track to meet its scheduled completion date, though the team emphasized the importance of maintaining momentum and avoiding any delays that could impact the hospital's operations.

Vishnu Waman Thakur Charitable Trust's
VIVA Institute of Technology
Approved by AICTE New Delhi, Recognized by DTE, Govt. of Maharashtra
And Affiliated to University of Mumbai
NAAC "B++" Grade

CIVIL ENGINEERING DEPARTMENT

- **Training and Handover:** As the construction nears completion, planning for the training of operational staff and a detailed handover process should begin. This will ensure a smooth transition from construction to operation.

Report on Event(Monthly Event-I)-2023-24

Date: 07ᵗʰ AUGUST 2023

Time: 1.30 PM onwards

Venue: VIVA Institute of Technology

Event: Seminar: Seminar on Building gaps between industry and academia

Total Participants: 67+40=107

The CSI-VIVA successfully organized the seminar on **"Building gaps between industry and academia"** at the Computer Engineering Department, VIVA Institute of Technology. The lecture was conducted by "Mr. Amey Raut". He is a serial entrepreneur, Founder of OTET infosystems and Director of TechTantra Automation Pvt Ltd. He has achieved a Master of Science in Management of Technology and a Master of business administration(MBA in general) from Murray State University, Kentucky, USA. His software development company OTET infosystems which he started along with his partner Parag Nerurkar back in 2017. OTET infosystems is well known to its customers for excellent mobile applications and website development. OTET infosystems has developed more than 600+ websites and 50+ more mobile applications in the last 7 years. OTET has a strong team of 15 developers. Mr. Amey Raut's another company Techtantra Automation pvt ltd is into IOT and electronics related product development. Recently their home automation products division which they have developed completely in house has been acquired by Pune based mnc. Techtantra has a product called Mobi Pump which helps farmers to turn On and Off their water pump from anywhere in the world. The Mobi Pump product is very helpful to farmers and it has gained popularity among farmers across India since 2020. He is a proud member of Rotary club of Palghar. He is currently president of Business Network International (BNI) Virar division.

And Affiliated to University of Mumbai
NAAC "B++" Grade

He covered all the points from the very basics, starting by explaining to the students about the importance of industry and academia .There was a large participation from students of S.E and T.E of Computer Engineering.

Overall it was an Informative Event.

Thanking You

Appreciation Letter:

Ref. No. : VIVA / VIT / 4710 / 2023-24

Date : 07/08/2023

To,
Mr. Amey Raut.,
Founder of OTET infosystem,
Director of TechTantra
Automation Pvt.Ltd,
Virar (West),
Maharashtra.

Subject: Letter of Appreciation

Respected Sir,

We are grateful to you for your valuable time and effort in delivering a seminar on **"Building Gaps between Industry and Academia"** to Second Year and Third Year students of Computer Engineering on 07th August, 2023. Your seminar was very much informative, knowledgeable, and motivating. Our students will cherish your value-adding words in their hearts.

Hope for similar support in future too.

Thanking You.

Yours faithfully,

Dr. Arun Kumar
Principal

Topic Name:	**Caliberation and Testing**
Name of the Guest Speaker:	**Aniket kumbhar**
Designation:	**Deputy Engineer**
Organization/Institution:	**Altop Industries Limited**
Date:	**6th February 2024**
Total no of students:	**35**

Programme summary:

The lecture was organised and schedule under VIVA Institute of Technology, EXTC department. Guest speaker Aniket Kumbhar took the session about Caliberation and Testing Where he taught about how Calibration is key to ensuring accurate measurements and helping to improve efficiency, compliance, and safety, while minimizing emissions, waste, and risk.. It was a session that was held online but in our seminar hall.He cleared all the doubts about the procedure regarding how caliberation takes place and also how testing is done after caliberation.The student gained knowledge in this domain and also got to know job opportunities in this field.

REPORT ON INDUSTRIAL VISIT – Vervali Systems Pvt Ltd

Founded in 2010, Vervali Systems is a global software engineering and testing firm committed to empowering clients by developing scalable products that simplify their customers' lives. As your technology partner, Vervali focuses on growing your business through ROI-driven software development and comprehensive quality assurance services.

Our journey began with humble beginnings as a software testing freelancer, and under the visionary leadership of our founder, Nilesh Jain, Vervali Systems has evolved into one of the fastest-growing IT companies, recognized by Clutch in 2023. Today, we proudly serve product companies worldwide with our team of over 250 experienced professionals, including Quality Analysts, Automation Engineers, Mobile and Web Developers. Together, we have successfully delivered over 350 high-quality software products across 12+ countries.

The name "Vervali" is derived from two crucial aspects of software delivery: Verification and Validation. Headquartered in Mumbai, India, Vervali Systems has extensive experience working with both domestic and international clients across more than 12 countries. Our operations are designed to meet global software testing standards and are scalable to suit the needs of seed-stage startups, large enterprises, and multinational corporations.

At Vervali Systems, we are committed to staying ahead of market trends by providing in-depth knowledge of emerging technologies demanded by the market. Our team-based project approach ensures that we work collaboratively, fostering a dynamic and supportive company environment where innovation thrives. We emphasize continuous learning and professional growth, creating a culture that encourages employees to expand their skills.

We offer a transparent recruitment process designed to attract top talent, ensuring that each new team member aligns with our mission and values. Additionally, Vervali Systems provides internship opportunities that allow aspiring professionals to gain hands-on experience, work on real projects, and learn directly from industry experts. Through these internships, participants are well-prepared for future careers in software development and quality assurance.

Overall, Vervali Systems is dedicated to delivering exceptional software solutions while nurturing talent and driving innovation in the technology sector.

REPORT ON INDUSTRIAL VISIT – Vervali Systems Pvt Ltd
Report on Industrial Visit at Vervali Systems Pvt. Ltd 2023-24

Date: 23rd March 2024.

Time: 10:30 am

Venue: Vervali Systems Pvt. Ltd, Vasai Road

Event: Industrial Visit

Total Participation: 10 students

The Department of Computer has successfully organized an Industrial Visit at Vervali Systems Pvt. Ltd situated at Vasai Road. This Industrial Visit was mainly organized for the Third Year students of the Computer Engineering Department. The CEO of Vervali Systems Mr. Nilesh Jain gave the students a thorough description about the company, their work and their clients. The students had a fun and fresh experience getting familiar with the corporate environment and how things work in a company. Students from T.E of the Computer Engineering Department attended this industrial visit. Overall the workshop was very informative and interactive that helped the students to learn about soft skills and their importance.

Thanking you.

About Invitation to Prolific Systems and Technologies Pvt. Ltd. to Judge Intercollege Project Competition

1 message

---

prolific palghar <prolificpalghar@gmail.com>   Sat, Mar 16, 2024 at 1:03 PM
To: TPO Electrical Dept VIVA Institute of Technology <tpo.electrical@viva-technology.org>

Dear sir

We were delighted to Invitation proposal on 16/03/2024 to participate as a judge in our upcoming Intercollege Project Competition.

It is my pleasure to inform you that after careful consideration prolific system and technology has accepted your invitation .

Thanking You

Kind Regards

Narendra A Bawankar

Regional Manager

Prolific system & Technology palghar.

Dear Narendra Bawankar,

I am writing to extend a cordial invitation to Prolific Systems and Technologies Pvt. Ltd. to participate as a judge in our upcoming Intercollege Project Competition.

The competition is scheduled to take place on **April 5th, 2024**, from **11:00 AM to 2:30 PM** at the Department of Electrical Engineering, VIVA Institute of Technology, Virar. As a distinguished organization known for its expertise and innovation in the field, we believe your participation would greatly enhance the event and benefit the participating students.

Your valuable insights and expertise will play a crucial role in evaluating the projects presented by the students. Your presence will not only provide encouragement to the participants but also contribute significantly to the success of the competition.

We sincerely hope that Prolific Systems and Technologies Pvt. Ltd. will accept our invitation to join us on this special occasion. Your support and involvement will be highly appreciated by the students, faculty, and organizers alike.

Thank you for considering our invitation. We look forward to the possibility of collaborating with Prolific Systems and Technologies Pvt. Ltd. at the Intercollege Project Competition.

Regards,

Prof. Amitkumar Vishwakarma

PROJECT EXHIBITION / PROJECT COMPITITION

ACADAMIC YEAR 2023-24

The Department of Electrical Engineering at VIVA Institute of Technology hosted a remarkable Project Exhibition/Project Competition on the 5th of April 2024. This event witnessed enthusiastic participation from 31 groups representing various institutes. The exhibition showcased innovative projects across four distinct venues: AC Machine Lab, Power Electronics Lab, Measurement Lab, and Communication Lab.

The event was graced by the presence of esteemed industrial professionals who actively engaged with the students' projects. Their presence added significant value to the event, providing students with insightful feedback and encouragement.

TO WHOMSOEVER IT MAY CONCERN

We are glad to inform that **Ms. Shweta Chaurasiya** student of VIVA INSTITUTE OF TECHNOLOGY, Virar East, has successfully pursuing her internship at edba Academy (Raw Engineering).

During her internship she is working on the project Grocery Store under the guidance of Mr. Sourabh Malewade (Senior Backend Developer - Mentor) during the period of 27th January 2024 to till date.

Throughout her internship, she proficiently implemented as a Full-stack Developer utilizing MongoDB, Express, React, and Node.js. She showcased an excellent aptitude for detecting defects and exhibited a proactive approach to learning new skills. Her performance surpassed expectations, and she accomplished the project successfully within the designated timeframe.

We extend our best wishes for her future endeavors.

REPORT ON INDUSTRIAL VISIT – Raw Engineering Academy

Introduction:

On 2nd February 2024, a group of students visited Raw Engineering Academy to gain a deeper understanding of how innovation is integrated into education through a practical, hands-on approach. This visit aimed to provide insights into the Academy's unique teaching methodologies, industry-focused programs, and the overall company environment.

Overview of Raw Engineering Academy:

Raw Engineering Academy is dedicated to redefining education through its "learning by doing" pedagogy. Unlike traditional educational institutions that rely heavily on lectures, books, and notes, the Academy emphasizes real-world applications of knowledge. Their programs are designed to be multi-skilled and industry-focused, encouraging students to personalize their learning experiences.

Key Highlights of the Visit:

Learning by Doing Approach: The visit began with a presentation on the Academy's unique approach to education. The "learning by doing" methodology allows students to engage in hands-on activities that simulate real-life scenarios. This approach not only enhances understanding but also encourages creativity and innovation.

Knowledge of Emerging Technologies: During the visit, the students were introduced to various courses offered by the Academy that focus on the latest technologies demanded in the upcoming market. The curriculum is designed to bridge the existing skill gap among Indian youth, ensuring they are prepared for the future needs of various industries.

Team-Based Projects: The students observed several teams working on live projects, giving them a glimpse into the collaborative environment at Raw Engineering Academy. These projects are an integral part of the learning process, helping students develop essential skills such as teamwork, communication, and problem-solving.

Company Environment: The visit provided a firsthand look at the Academy's dynamic and inclusive company environment. The atmosphere is one of constant learning and growth, with a strong emphasis on collaboration and mutual support among students and faculty.

Recruitment Process Insights: The students were given an overview of the Academy's recruitment process, including the various stages and criteria used to select candidates. This session helped demystify the hiring process and provided valuable tips on how to succeed in job interviews and assessments.

Internship Opportunities: Raw Engineering Academy offers several internship programs designed to provide students with practical experience in their chosen fields. The visit included discussions about these opportunities, the application process, and the benefits of participating in internships to enhance career prospects.

REPORT ON INDUSTRIAL VISIT – Raw Engineering Academy

Conclusion:

The industrial visit to Raw Engineering Academy was a highly informative and engaging experience. The students gained valuable insights into the Academy's innovative educational practices, the importance of staying updated with new technologies, and the benefits of working in a collaborative environment. The knowledge gained from this visit will undoubtedly help them in their future careers, equipping them with the skills and mindset needed to succeed in today's competitive job market.

Recommendations:

Based on the visit, it is recommended that students consider the courses and internship opportunities offered by Raw Engineering Academy to enhance their skills and improve their employability. Furthermore, adopting a proactive approach to learning and embracing teamwork can significantly contribute to their personal and professional development.

Report on Industrial Visit (Raw Engineering)-2023-24

Date:11 th MARCH 2024

Time: 03:00 PM onwards

Venue: Raw Engineering Pvt Ltd., Virar West

Event: Industrial Visit

Total Participation: 45

The CSI-VIVA successfully organized an Industrial Visit for S.E and T.E of Computer Engineering Department students at **"Raw Engineering Pvt Ltd"**.The industrial visit to the Raw Engineering Company was arranged by CSI-VIVA TECH, and the students were eagerly looking forward to it with great enthusiasm and excitement. Students got the opportunity to gain comprehensive insights into the company's rich history, innovative operations, and meticulous production processes.

Overall, the visit proved to be an enriching experience that provided the students with a unique learning opportunity.

Overall it was an Informative Event.

Subject: Letter of Appreciation

Respected Madam,

VIVA Institute of Technology is very much thankful to Edba Academy (A venture of Surfboard India Pvt. Ltd), Virar (West) for granting permission to visit your esteemed organization on 11th March 2024 for second year and third year Computer Engineering students. This visit was value-adding and our students will cherish your interaction and experience in their hearts.

We expect similar support in future too.

Thanking You.

Yours faithfully,

11.3.2024

ACKNOWLEDGEMENT

The students of the 4th Semester Civil Engineering Department, were thankful to our principal Dr. Arunkumar sir, and the head of the department of Prof. Akshay mistry sir respectively for supporting an educational visit of Ameya RMC Plant.

We are also very thankful to AMEYA RMC Plant for permitting a visit. We are also very thankful to the Plant supervisor for giving us informative guidance

GENERAL INFORMATION

AMEYA CONCRETECH PRIVATE LIMITED (Part of Ameya Group of Companies) was established in the year 2005 It is located at Virar in Thane district of Maharashtra. The company has emerged as one of the major manufacturers of R. C. C. spun pipes and Ready Mixed Concrete. The company is mainly engaged in the business of Manufacturing Civil Engineering products like R.C.C. spun pipes, Ready-mixed concrete lightweight concrete blocks, etc. As we know since the dawn of civilization, there are a huge requirement for civil Engineering products. As the degree of Infrastructure, Construction and Realty have increased, the volume of this business has also increased manifold. Company Directors have vast experience of over 20 years in this field and they have decided to exploit the opportunity of modernization and mechanization to increase the volume and aim to gain major market share.

READY-MIX CONCRETE

Ready Mix concrete that is manufactured in a factory or batching plant, according to a set recipe, and then delivered to a work site by truck-mounted- transit mixers. This results in a precise mixture, allowing specialty concrete mixtures to be developed and implemented on construction sites. The first ready-mix factory was built in the 1930s, but the industry did not begin to expand significantly until the 1960s, and it has continued to grow since then. A concrete plant, also known as a batch plant or batching plant, or a concrete batching plant, is equipment that combines various ingredients to form concrete. Some of these inputs include water, air, admixtures, sand, aggregate (rocks, gravel, etc.), fly ash, silica fume, slag, and cement. There are two main types of concrete plants: Dry mix plants and Wet mix plants, and also plants that contain both a transit mix side and a central mix side while utilizing common material storage points. A concrete plant can have a variety of parts and accessories, including mixers (either tilt drum or horizontal or in some cases both), cement batchers, aggregate batchers, conveyors, radial stackers, aggregate bins, cement bins, heaters, chillers, cement silos, batch plant controls, and dust collectors.

NAAC "B++" Grade

PURPOSE OF VISIT

Purpose of Visit Technical exposure of Concrete Technology, Manufacturing Processes and other Engineering aspects of Concrete Technology Subject. We learnt the Process of making concrete, Material used in the making of concrete, Tests conducted over Concrete Blocks, the Curing process for Concrete Blocks, etc. With this kind of industrial visit, we gained more knowledge on Concrete Technology application aside from the theoretical aspect learned from the classrooms and laboratory.

CIVIL ENGINEERING DEPARTMENT

NOTICE

VIT / CIVIL / 33 / 2023-24   DATE: 12/03/2024

All the students of S.E. Civil are hereby informed that, the Industrial Visit has been arranged to visit the Ameya RMC Plant, Nallasopara on 18th March, Monday.

All the students should report at AMEYA RMC PLANT at 11:00AM sharp.

Location for the visit: Valaipada via Santosh bhavan,

Village More,

Nallasopara (East)

Note: Attendance will be compulsory for the visit.

Subject Incharge   H.O.D. (Civil Engineering)

Prof. Ramya Raju   (Prof. Akshay Mistry)

Date : 18·3·24

Nallasopara(E).
Dist-Palghar, Maharashtra.

Sub: Letter of appreciation

Respected Sir,

We are thankful to you for spending your valuable time and expertise on the subject **"Building Material and Construction"** for our second year Civil Engineering students on **18th March 2024**. Your lab was very informative, knowledgeable and motivating. Our students will cherish your value by adding words in their hearts.

Hope for similar support in future too.

Thanking You,

Yours faithfully,

18.3.24

Dr. Arun Kumar
Principal
