### Programme Summary/Details:

An industrial visit organized by CSI-VIVA TECH took SE, TE and BE Computer Engineering students to Mumbai Central to learn about the operations of the Mumbai local trains. Students gained valuable insights into train scheduling, safety protocols, and the technology behind managing the city's vast transportation network. The visit offered a practical understanding of the complexities involved in running such a large-scale operation, inspiring students to explore real-world applications of technology and systems management.
