10/12/2024

A meeting of Internal Quality Assurance Cell (IQAC) was held on 10/12/2024 at 3:00 PM in IQAC cell.

The following members who signed below were present

1. Mrs. Aparna Thakur - secretary
2. Mrs. Nikhil Jain - Employee
3. Shri. Sanjeev Patil - Management Member
4. Shri. S.N. Padhye - Local Society
5. Shri. V.S. Patil - Sr. Admin officer
6. Shri. K.P.N. Kuttu - Sr. Admin officer
7. Shri. Sanjay Pingulkar - Stakeholder
8. Shri. Bharat Sharma - Industrialist
9. Dr. Anur Kumar - Principal
10. Dr. Archana Ingle - Faculty
11. Dr. Deepak Sajnekar - Faculty
12. Dr. Ashwini Save - Faculty
13. Dr. Trupti Patil - Faculty
14. Mrs. Chandani Patel - Faculty
15. Mrs. Akshay Mishra - Faculty
16. Ms. Nizat Shaikh - Faculty
17. Mrs. Poonam Jadhav - Faculty
18. Mrs. Swapnil Raut - Faculty
19. Mrs. Vandana Tambe - Student
20. Mrs. Kanchana Raut - coordinator

Agenda:

1. confirmation of minutes of the last meeting
2. Matter arising out of the last meeting
3. Academic Audit Review
4. NCRENB - 2025 pre-requisite
5. Planning for Hitalshi - 2025
6. STTP Review
7. AQAR 2023-24 Review
8. Planning for next semester (Jan 2025)

3. Any other matter with permission of chair.

The chairperson of IOAE, Dr Arun Kumar welcomed all the members and meeting commenced. Discussion on above agenda is given below.

1. Minutes of the last meeting were read and confirmed by all the members.

External Academic Audit Report

Remarks by External Auditor:

1. Faculty efforts in syllabus coverage and continuous evaluation are appreciable.
2. Good academic results reflect effective teaching and strong student engagement.
3. To enhance student's technical skills, the department conducts and maintains a good number of workshops, value-added courses and training sessions.
4. The department has maintained an excellent record of students securing paid internships.
5. The department has actively contributed to curriculum design in collaboration with the Board of Studies, University of Mumbai. Faculty members have also served as paper setters, examiners, and moderators at the University of Mumbai.
6. The efforts taken for alumni engagement have been highly appreciable.
7. To improve academic quality, the department should ensure every workshop and training session is mapped with relevant CO-POs and supported by structured feedback.
8. Faculty engagement in research and scholarly publications requires improvement.
9. The department needs to place greater emphasis on improving student attendance.
10. Maintain a mapping record to track the implementation status of activities against the planned academic calendar.
11. The department is advised to schedule remedial lectures to provide additional learning support.

24	Newsletter/ Magazine	Newsletter 1 Magazine 1	Enhancement suggested
25	Alumni Engagement	4 Guest Lectures 2 Expert Talk	Excellent

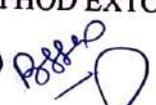

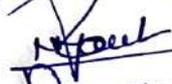

Remarks

1. The department has made excellent contributions through active participation in the Board of Studies (BoS), University of Mumbai.
2. Alumni engagement initiatives have been highly commendable.
3. Improvement is required in student attendance and academic results, particularly during the first year.
4. Faculty and students should be further encouraged to engage in research, and to participate/publish in international conferences and reputed journals (UGC Care, Scopus indexed, SCI).
5. Student participation in curricular, extracurricular activities, and competitions needs to be enhanced.
6. The quality of the departmental magazine should be further improved, and steps should be taken to obtain an ISSN.
7. Teaching plans should be carefully verified against the number of available lectures, as significant variation has been observed across subjects.
8. The number of MoUs and activities conducted through them should be increased.

Audit for AY 2024-25

Date: 14/10/2025

Remarks by interdepartmental Audit Committee

Sr. No.	Description	Observations	Remarks						
1.	Attendance	good practice of taking signature	Must start automation for attendance marking						
2	Coverage of syllabus	Plan for min. less no.	must plan for min prescribed no of lectures.						
3	Student feedback	good feedback system	start standardisation of formats, start giving Numbers to the form.						
4	Continuous Evaluation	good maintenance of CE, comparing	must take some efforts to improve result based on last year result						
5	Quality of Unit test paper	-using BLT	must have some strategy to use BLT						
6	Analysis of University result <table border="1" style="width: 100px; height: 40px; margin: 5px;"> <tr> <td>47%</td> <td>29%</td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> </tr> </table>	47%	29%					increase in result as compared to last year	2 nd year result is concerning must think of this
47%	29%								
7	Remedial classes	Remedial is taken after 1st & 2 nd	must follow Rubric to identify slow learner.						
8	Seminars/ guest lecture / Workshops Domain IPR/Soft skill/ICT/other	GL=6 W/S = Project Exhibition = 0							
9	Industrial Visits (Student & Faculty) S=2 F=9	along with student faculty also visiting	good practice						
10	Value Added Courses	Total = 5	good enough - question paper & Grade sheet created						
11	Student counseling	Good maintained file	Good practice						
12	Faculty Development Programs organised	01 Dept level STTP	✓						
13	Infrastructure	physical infra.	Available as per Requirement						

14	Self-Learning resources	Self learning material available	✓
15	Student Participation and achievements Inhouse & Other	Achievers = 16 Activity = 17 Total students = 84	good participation
16	Internal Quality Assurance related activities	Remedial & Cont. evaluation	work for slow learner
17	Placement	placement is good enough	✓
18	Internship	well maintained file	
19	Student - Teacher Ratio	SFR is 1:10 very large	may be due to less no. of students. Faculty count is enough.
20	MoUs	mou = 5 Activity = 3	Good practice.
21	Faculty Publications Conferences Journals	Journal = 5 published Nat. conference = 23	publication count should be increased.
22	FDP/STTP attended (Outside VIT) ATAL/SWAYAM/NPTEL	STTP = 34, examiners Year 4 per faculty paper setting	good enough.
23	SWOC	Need to overcome weakness and challenges.	✓
24	Newsletter/ Magazine	01 Annual magz'n 02 news letter	good practice
25	Alumni Engagement	4 Activities of Alumni meet	Need to maintain Alumni Record & update

Remarks

- 1) All files are maintained properly.
- 2) In some files updation is required (Refer remarks)
- 3) Work on standardization of documents.
- 4) Good no. of student activities, placement & participation.

External Audit Report

Date: 29.09.2025

Name of Department: Civil Engineering

Audit year : 2024-25

Remarks by External Auditor

1. All departmental files are well maintained as per records.
2. Syllabus coverage and course file of all subjects are well maintained.
3. Gaps between the syllabus and the industry was identified and the bridge courses were conducted.
4. Projects must be aligned with vision mission and sustainable development goals.
5. Multi-disciplinary projects can be promoted.
6. Consultancy activities in collaboration with diploma can be planned.
7. ISTE Students chapter can be started
8. Faculties must attend the ATAL, SWAYAM, MOOC, NPTEL Courses
9. Final Year projects can be published under international Scopus indexed journals and conferences
10. Extra lectures are provided for DSC students with 100% syllabus coverage
11. Alumini interactions are appreciable.
12. Identify the weak students and special mentoring can be provided for improving their performance

25	Alumni Engagement	04	Records are maintained

Remarks by Interdepartmental Audit Committee

1. Improvement has been observed in faculty participation and research publications.
2. Faculty members should be further encouraged to publish research papers in UGC-CARE and other reputed journals.
3. Students should be motivated to pursue internships and certification courses to enhance their skills and employability.
4. The department's efforts in producing the newsletter and technical magazine are commendable; however, adherence to proper guidelines is recommended.

Academic Year 2025 – 26
Audit Report for Academic Year 2024 – 25

Name of Auditor: - Dr. Tatwadarshi P. N.

Date: - 15/10/2025

It is based on code of conduct and actions taken in relation to continuous improvement.

Remarks by External Auditor –

1. Student participation and achievement count at national, state, inter and intra-institutional levels are very good.
2. Faculty publication at national and international level is appreciable.
3. Include the exam policy document in the exam file.
4. Attach the university paper solutions in exam file.
5. Maintain one page report for elective subject orientation program.
6. Maintain employer feedback for student internships as per given by AICTE.

marks by Interdepartmental Audit Committee

1. Faculty efforts in syllabus coverage and continuous evaluation are appreciable, and their active participation in MOOC courses further enhances academic quality.
2. Good academic results reflect effective teaching and strong student engagement.
3. To enhance student's technical skill a good number of workshops, value added courses and training sessions are properly conducted and maintained by the department.
4. Students participation in internships and technical activities is commendable; efforts are needed to involve more students in external competitions and events.
5. Faculty publications in reputed journals are appreciable; efforts are needed to involve more faculty in research and publication.
6. Dedicated infrastructure is recommended to enhance teaching and learning.
7. The department is advised to optimize the student-faculty ratio to strengthen departmental activities.

Ratio of Mentor to Mentees	1:17														
12	Faculty Development Programs organized	Power Load Forecasting Using Machine Learning" was held during 4th November to 11th November 2024	Records are maintained												

Remarks

1. Faculty contributions toward syllabus coverage and continuous evaluation are commendable
2. Strong academic results reflect effective teaching practices and active student engagement
3. The department has demonstrated good performance in core placements, however, placement data calculation and reporting processes need refinement for improved accuracy and analysis.
4. Faculty members are encouraged to actively utilize the institute's financial assistance scheme to upgrade their skills and knowledge.
5. Participation of faculty in external FDPs and of students in technical competitions requires further improvement.
6. Research output needs significant enhancement, as there is a noticeable lack of publications in reputed journals (Scopus/UGC CARE).
7. Alumni engagement initiatives are noteworthy and appreciated.
8. The number of active MoUs should be increased to strengthen academic-industry collaboration.

Department of Electronics and Telecommunication Engineering

Academic Audit Report

Academic Audit for AY 2024-25 of Electronics & Telecommunication engineering department is conducted on 10th October 2025 by external auditor.

It is based on code of conduct and actions taken in relation to continuous improvement.

Remarks by External Academic Auditor-

The following points were noted during the visit.

1. **Course file:** Include College Vision and Mission along with the Department Vision and Mission at the beginning of the course file.
Same file should include IA solution, University paper solution, Assignment with solution and Quiz paper.
2. **Faculty Feedback:** Issue Warning letter to low feedback faculty.
3. **PO mapping:** Cover PO mapping through assigning Assignment or giving case study to satisfy blooms level.
4. **Activity Report** should include photos, student feedback (Bridge course/guest lecture/workshop/IV/ Appreciation to student/Internship)
5. **Mentor book:** mention the telephonic conversion done by faculty on counselling page
6. Financial Assistant detailed should be signed by all faculties.
7. Self-learning material can include small experimental video created by faculty/experts for students.
8. Placement record maintain properly in file showing no. of offers to per student with package.
9. Internship report marks consider for internal term work for mini project/project.
10. Increase no. of MOUs and placement.
11. Student teacher ratio is to calculate as per sanctioned intake or actual intake whichever is highest.
12. Show separate Project lab in department as required by NBA.
13. Include student name along with faculty in Technical magazine editorial board.
14. Increase Alumni Engagement for NBA point of view.

Department of Electronics and Telecommunication Engineering

Department strength:

1. Teaching-learning records are maintained very well.
2. Self-learning of faculties through FDP/ NPTEL is appreciable.
3. Good student achievements.
4. Strong alumni network.

Department weakness:

1. Collaborative Research publications and consultancy projects need to be increased by faculties/students.
2. Need to initialize proposals for research funding.

To,

Dr. Amrita Ruperee,

Associate Professor,

HOD, Electronics and Telecommunication Engineering,

Vidyavardhini's College of Engineering & Technology,

Vasai (W), Dist-Palghar, Maharashtra.

Subject: Letter of Appreciation.

Dear Madam,

We are really grateful to you for your valuable time and effort as **External Academic Auditor** for our Electronics and Telecommunication Engineering department on **10th October 2025**. Your guidance was very much informative, knowledgeable and motivating to our faculty members.

Your valuable suggestions will be helpful for the growth of department and institute.

Hope for similar support in future too.

Thanking You.

Audit for AY: 2024-25

Remarks by interdepartmental Audit Committee

Sr. No.	Description	Observations	Remarks
1.	Attendance	67-83% odd term 71-86% even term	Records are maintained
2	Coverage of syllabus	100%	Records are maintained
3	Student feedback	Student twice/ sem Faculty and curriculum once /year	Records maintained as per IQAC
4	Continuous Evaluation	Teaching Plan; Mentor, syllabus completion, course file	Records are maintained
5	Quality of Unit test paper	As per format	All Co'S are covered with Bloom level and PI indicator
6	Analysis of University result 27.8% 40.41%	Gazette copy and result analysis available	Records maintained and results can be improved with proper guidance
7	Remedial classes	Taken for IA 1 and university exam results	Records are maintained
8	Seminars/ guest lecture / Workshop Domain IPR/Soft skill/ICT/other	03	02 internal faculty 01 external faculty
9	Industrial Visits	-	-
10	Value Added Courses	01	Records are maintained
11	Student counseling	1:33	Records are maintained
12	Faculty Development Programs organised	NA	NA
13	Infrastructure	05 CLASS ROOM STAFF ROOM 01 LAB 02	Sufficient
14	Self-Learning resources	Google classroom; Department library; department book bank	Records are maintained

15	Student Participation and achievements Inhouse Other	Inhouse -22 Others -03	Student Participation can be improved outside VIT
16	Internal Quality Assurance related activities	Quiz; flip classroom, remedial test ; aptitude test	Records are maintained
17	Placement	NA	NA
18	Internship	NA	NA
19	Student – Teacher Ratio	SEM I 1:20 SEM II 1:18	Records are maintained
20	MoUs	NA	NA
21	Faculty Publications Conferences Journals	Conference 06 BOOK PUBLICATION 01 INTERNATIONAL JOURNAL 01	Records are maintained
22	FDP/STTP attended (Outside VIT) ATAL/SWAYAM/NPTEL	STTP 10 FDP 03 SWAYAM 02	Good participation is observed
23	SWOC	S: Experienced faculty from various discipline W: Academic result and to involve students for certified courses. O: To prepare students to be all round engineers C: Shortage of Teaching staff	-
24	Newsletter/ Magazine	News letter 01	Technical Magazine can be started
25	Alumni Engagement	NA	NA

Remarks

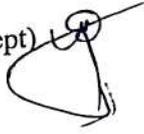

1. The faculty has published a book and contributed to paper setting and moderation at the University of Mumbai.
2. Students are encouraged to pursue certified courses and actively participate in intercollegiate activities.

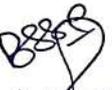

Vishnu Waman Thakur Charitable Trust's
VIVA Institute of Technology
Shirgaon, Virar (East), Dist: Palghar-401305, Maharashtra
Website: www.viva-technology.org

3. Faculty participation in SWAYAM/NPTEL courses needs to be enhanced. It is recommended that every faculty undertakes at least one course or training program each year for continuous professional development.
4. Faculties are encouraged to publish in Scopus-indexed journals and to develop learning resources leveraging the expertise of senior members.
5. The department is appreciated for its newsletter initiatives; however, it is recommended to develop a technical magazine in line with standard guidelines.

CIRCULAR

All the faculty members are hereby informed that the ISTE approved one week STTP is organized by Department of Master of Computer Applications, Department of Computer Engineering, Department of Computer Science and Engineering (AI & ML) on the topic "Microsoft Azure AI Engineer Associate" from 9th Dec to 14th Dec 2024. All the faculties are requested to attend the same.

Detailed Schedule:

Date	Topic	Timing
9/12/2024	Get Started with Azure AI Services	9am to 11am
	Analyze Images with Azure AI Vision	11:15 am to 1pm
	Read Text in Images	1:30pm to 4pm
10/12/2024	Classify images with a Azure AI Vision custom model	9am to 11am
	Analyze Text	11:15 am to 1pm
	Create a Question Answering Solution	1:30pm to 4pm
11/12/2024	Create a language understanding model with the Language service	9am to 11am
	Recognize and synthesize speech	11:15 am to 1pm
	Integrate Azure OpenAI into your app	1:30pm to 4pm
12/12/2024	Utilize prompt engineering in your app	9am to 1pm
	Use your own data with Azure OpenAI	1:30pm to 4pm
13/12/2024	Create a Custom Skill for Azure AI Search	9am to 1pm
	Extract Data from Forms	1:30pm to 3:30pm
	Feedback 1	3:30pm to 4pm
14/12/2024	Real Time Applications of AI services	9am to 2:30pm
	Feedback 2 and Quiz	2:30pm to 4pm

Quiz on ISTE Approved One week STTP on "Microsoft Azur AI Engineer Associate"

Organized by: Department of Master of Computer Applications, Department of Computer Engineering, Department of Computer Science and Engineering (AI & ML)

Scheduled on: 9th Dec to 14th Dec 2024

* Indicates required question

1. Email *

2. Name of the Faculty

3. Name of the Department *

Answer the Questions given below:

4. 1) Which of the cognitive Service API would help in:

* 1 point

- Scanning text to identify personal data
- Using a Custom list in-line with content policies to block or allow content.

Mark only one oval.

- Computer Vision
- Text Analytics
- Text Protector
- Content Moderator

5. 2) In order to configure a bot to connect to a specific channel, you execute the following steps in Azure: * 1 point
- Step 1: Log in to Azure Portal.
 - Step 2: Choose the bot for configuration.
 - Step 3: In Bot Management, select Channels.
 - Step 4: Select the required channel to integrate Bot into Mobile or Web Application.

Which channel would you use to meet the requirements as given in Step 4 above? [choose one option]

Mark only one oval.

- Slack
- Microsoft Teams
- Direct Line
- Office 365 email

6. 3) A company using traditional online analytical systems is performing analytics to identify fraudulent mobile calls. However, the traditional analytical system is taking long hours to perform the data transformation and data analysis. Eventually, the identification of fraud calls is cost-inefficient and is taking much more time. * 1 point

Which of the below 2 fully managed Azure services can help the company reduce the cost for data ingestion and eventually perform real-time analytics?

Check all that apply.

- Event Hub
- Azure Machine Learning
- Azure Functions
- Stream Analytics

7. 4) In Azure cognitive search, an indexer for text content simplifies the complex process of loading an index by providing a mechanism for connecting to and reading text from fields in a data source. It serializes that content as JSON documents and hands-off those documents to the search engine for indexing.

* 1 point

To create an indexer for text content, what are the required properties that you need? (select any 2 answer choices)

Check all that apply.

- dataSourceName
- searchIndexerClient
- name
- fieldMappings

8. 5) Which of the below cognitive service is NOT a Language Cognitive Service offering from Azure?

* 1 point

Mark only one oval.

- Language Understanding
- Text Analytics
- Speech Service
- Translator

9. 6) A retail pharmacy giant operating for the last 80 years and having 2000+ retail stores plans to modernize its business to Lower TCO by moving its on-premises data warehouse for inventory management to the cloud. Ensure that analytics are generated efficiently and decision-making is improved. The solution can scale on-demand. * 1 point

Which Azure offering can help you in setting up a private connection from on-prem to Azure?

Mark only one oval.

- Azure Databricks
- Azure Express route
- Azure ConnectDirect
- Container Instances

10. 7) You have a requirement to identify and block Video Content that is found to have adult content. You use Video Indexer or Video analyzer for Media in Azure for this purpose. Which element would you choose to get the required insights in the video and time ranges that show the appearance of these insights? * 1 point

Mark only one oval.

- sentiments
- visualContentModeration
- emotions
- shots

11. 8) Which of the below cognitive service is NOT a Language Cognitive Service offering from Azure? * 1 point

Mark only one oval.

- Language Understanding
- Text Analytics
- Speech Service
- Translator

12. 9) You have a requirement to identify and block Video Content that is found to have adult content. You use Video Indexer or Video analyzer for Media in Azure for this purpose. Which element would you choose to get the required insights in the video and time ranges that show the appearance of these insights? * 1 point

Mark only one oval.

- sentiments
- visualContentModeration
- emotions
- shots

13. 10) A developer is working on building a "Deep Search AI solution" for a video library company. The solution requires insights extraction from video to improve the user video searching experience. The solution also requires enabling users to "create content for social media" based on the insights from their videos. * 1 point

Which Azure cognitive service should the developer use?

Mark only one oval.

- Face API
- Computer vision
- Video Indexer
- Bing Video Search

Report on STTP

Topic Name:	Mumbai University & ISTE approved one week STTP on "Microsoft Azur AI Engineer Associate"
Organizing Departments:	Department of Master of Computer Applications(MCA), Department of Computer Engineering, Department of Computer Science and Engineering (AI & ML)
Name of the Guest Speaker:	Mr. Abhay Dhanmeher (Trainer in ICT Academy) Mr. Navneet Maurya (Senior developer at Parle Agro)
Date:	9th Dec to 14th Dec 2024
Time:	9am to 4pm
No. of Participants:	21

Program Summary/Details:

The Mumbai university and ISTE-approved offline One Week Short Term Training Program (STTP) on "Microsoft Azur AI Engineer Associate," organized by Department of Master of Computer Applications(MCA), Department of Computer Engineering, Department of Computer Science and Engineering (AI & ML) of VIVA Institute of Technology, Virar (W) in association with ICT academy.

This program is designed to empower educators with the skills to design, develop, and deploy AI solutions using Microsoft Azure. Participants will gain hands-on experience with Azure AI services, including natural language processing, computer vision, and responsible AI principles, enabling them to prepare students for industry-ready AI certifications. The program emphasizes practical knowledge and application, ensuring faculty members can integrate Azure-based AI solutions into their teaching methodologies effectively.

Day 1: 9th Dec 2024

The first day of the training program commenced with an **Introduction to AI on Azure**, where participants were introduced to the capabilities and services offered by Microsoft Azure in the realm of Artificial Intelligence. The session covered key concepts and foundational knowledge, setting the stage for deeper exploration into AI technologies.

The second part of the day focused on **Analyzing Images with Azure AI Vision**. Participants were shown how to use Azure's Computer Vision API to analyze and extract meaningful information from images. This included recognizing objects, categorizing images, and understanding scene context, which are fundamental skills for working with visual data in AI applications.

The final topic of the day, **Reading Text in Images**, explored Azure's Optical Character Recognition (OCR) capabilities. This feature allows AI to detect and extract printed or handwritten text from images, which is especially useful in scenarios like document processing, signage interpretation, and digitizing physical data.

The overall goal of the session was to familiarize participants with practical applications of AI and machine learning tools on the Azure platform, especially in the domain of computer vision and image analysis, preparing them for more advanced topics and hands-on labs in the coming days.

Day 2: 10th Dec 2024

The second day of the training program began with a session on **Classifying Images with an Azure AI Vision Custom Model**. In this segment, participants learned how to create custom image classification models using Azure's Custom Vision service. The session covered the steps of training a model to classify images into specific categories based on user-defined tags. Participants gained hands-on experience in building, training, and evaluating these models, enabling them to customize AI solutions for specific image-related tasks.

Next, the focus shifted to **Analyzing Text**. In this section, participants explored Azure's Text Analytics service, learning how to extract valuable insights from textual data. They were introduced to key features such as sentiment analysis, key phrase extraction, entity recognition, and language detection. This part of the training emphasized how to leverage AI to process and analyze large volumes of text, making it easier to derive actionable insights for various applications like customer feedback analysis, content categorization, and more.

The final topic of the day was **Creating a Question Answering Solution**. In this session, participants learned how to build an intelligent question-answering system using Azure's Cognitive Services. They were shown how to use pre-built models to create solutions that can understand natural language questions and provide relevant answers from a knowledge base, documents, or web content. The session covered how to integrate this AI capability into chatbots, helpdesks, and other interactive systems to improve user experiences and streamline information retrieval.

By the end of the day, participants had a deeper understanding of Azure's AI capabilities in image classification, text analysis, and intelligent question answering, as well as practical experience in applying these tools to real-world scenarios.

Day 3: 11th Dec 2024

The third day of the training program began with a session on **Creating a Language Understanding Model with the Language Service**. In this segment, participants were introduced to Azure's **Language Understanding (LUIS)** service. They learned how to build and train custom language understanding models to interpret and process natural language inputs. The focus was on defining intents, entities, and utterances to create intelligent applications that can understand and respond to user queries in a more human-like manner. This session provided a hands-on experience in building language models that can be integrated into various apps, such as chatbots and virtual assistants.

Next, the training shifted to **Recognizing and Synthesizing Speech**. Participants explored Azure's **Speech Service**, which includes capabilities for speech-to-text (recognizing spoken words) and text-to-speech (synthesizing spoken output from text). The session covered key use cases, such as converting spoken language into written text for transcription, enabling voice commands for applications, and generating natural-sounding speech from written content. Participants also had the opportunity to experiment with customizing speech models to recognize specific accents, languages, and voices, as well as adding features like real-time speech translation.

The final topic of the day was **Integrating Azure OpenAI into Your App**. Here, participants learned how to integrate advanced AI models from **Azure OpenAI** into their applications. The session focused on using models like GPT for natural language processing tasks such as text generation, conversation, summarization, and sentiment analysis. Participants were shown how to set up and interact with the OpenAI API, enabling them to add cutting-edge AI capabilities to their own projects. Real-world use cases included building intelligent chatbots, content generation tools, and applications for customer support or data analysis.

By the end of the day, participants had gained valuable hands-on experience with Azure's language and speech services, as well as practical knowledge on how to integrate Azure OpenAI's powerful capabilities into their apps to create intelligent, conversational user experiences.

Day 4: 12th Dec 2024

The fourth day of the training program began with a session on **Utilizing Prompt Engineering in Your App**. In this segment, participants learned about the concept of **prompt engineering**, which is the art and science of crafting effective prompts to get the desired responses from AI models, particularly those from **Azure OpenAI**. The focus was on designing prompts that can help guide the AI to provide accurate, contextually relevant, and useful outputs. Participants explored how to fine-tune their prompts for various tasks, such as question-answering, content generation, summarization, and more. They also experimented with using different prompt structures and techniques to improve the AI's performance in specific scenarios, learning how small adjustments in wording can lead to significantly better results.

Following that, the training covered **Using Your Own Data with Azure OpenAI**. This session emphasized how to leverage custom datasets to enhance the capabilities of the **Azure OpenAI models**. Participants learned how to fine-tune pre-trained models with their own data, allowing them to tailor the AI to their specific use cases and business requirements. The session covered best practices for data preparation, training, and integration, enabling participants to create more personalized and relevant AI-powered applications. They were shown how to upload and manage data in the Azure environment, and how to use that data to further improve model accuracy and performance for tasks like classification, generation, and summarization.

By the end of the day, participants had a solid understanding of how to work with **Azure OpenAI's advanced features**. They gained the skills to effectively craft prompts for their applications, as well as how to integrate their own data to fine-tune the models and make them more customized to their specific needs. This hands-on experience set them up for building more intelligent, data-driven applications in the real world.

Day 5: 13th Dec 2024

The fifth day of the training program commenced with a session on **Creating a Custom Skill for Azure AI Search**. In this segment, participants learned how to extend the capabilities of **Azure Cognitive Search** by developing and integrating custom skills. Azure AI Search allows users to enrich their search experiences with AI-powered content understanding, and custom skills let them tailor the search process to specific business needs. Participants were introduced to the concept of AI enrichment pipelines, where they could create custom processing steps to extract valuable information from unstructured data, such as documents or images. They gained hands-on experience in building and integrating these custom skills to enhance search relevance, improve result ranking, and automate complex data extraction workflows.

The next topic of the day was **Extracting Data from Forms** using Azure's **Form Recognizer** service. This session focused on how to automate data extraction from structured and semi-structured forms, such as invoices, receipts, surveys, and contracts. Participants learned how to use the pre-built models in **Form Recognizer** to quickly extract key fields like dates, amounts, and names from documents. They also explored how to train custom models to handle more specialized or complex form layouts. The session covered the process of scanning, analyzing, and structuring the data to be used for further processing, reducing the manual effort of data entry and improving efficiency in document-based workflows.

By the end of the day, participants had practical experience in **creating custom skills** for AI-powered search applications and **extracting structured data** from various types of forms. These skills are crucial for automating document management tasks, improving search functionalities, and integrating AI-

driven insights into business workflows. Participants were now equipped with the knowledge to build advanced search solutions and automate document processing in their own applications.

Day 6: 14th Dec 2024

The sixth day of the training program commenced with a session on **Real-Time Applications of AI Services**. This session aimed to demonstrate how the various AI services covered in the previous days could be applied to real-world scenarios, emphasizing their practical utility and impact across industries.

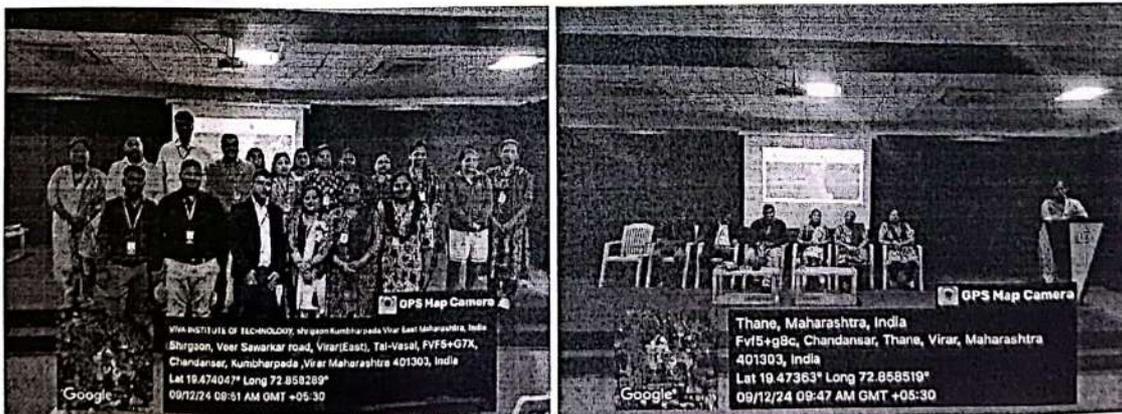

Throughout the day, participants engaged in hands-on labs where they got to implement real-time AI models and integrate them into applications. They experimented with using Azure's AI tools to build a simple real-time video analysis app, integrate speech-to-text for live transcription, and implement a personalized recommendation engine for e-commerce scenarios.

By the end of the day, participants had a deeper understanding of how to leverage **Azure AI services** to create dynamic, real-time applications that can respond to user input, process data in real time, and provide instant, actionable insights across various business domains.

In conclusion, The **Short-Term Training Program (STTP) on Microsoft Azure AI Engineer Associate** has been a comprehensive, hands-on journey into the world of Artificial Intelligence, focusing on the practical applications and tools available on the **Azure platform**. Over the course of the training, participants gained in-depth knowledge and experience in various AI-related technologies, which are becoming increasingly vital in modern business and technological landscapes. The program also highlighted the growing importance of cloud-based AI platforms like **Azure**, enabling businesses to scale and adapt to the rapidly changing technological landscape. Whether it's **improving customer experiences, automating workflows, or enhancing decision-making processes**, the ability to effectively integrate AI into applications has become a valuable skill in today's digital economy.

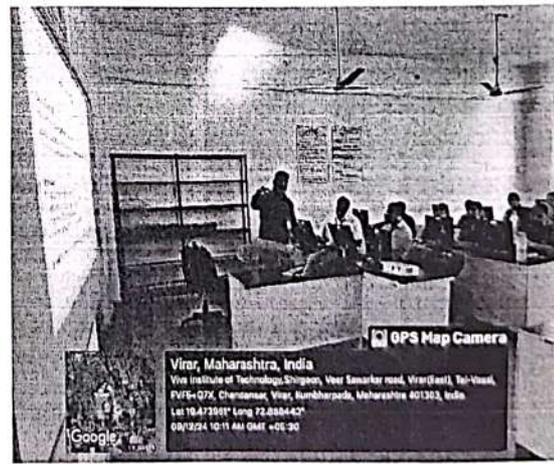

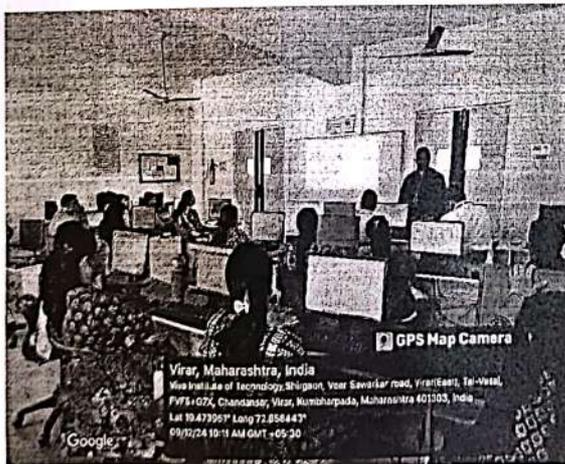

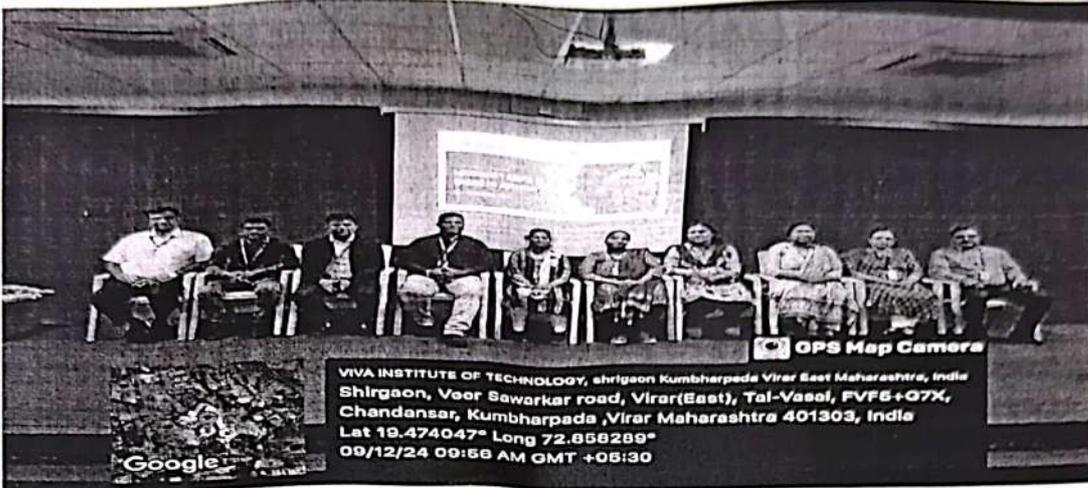

We encourage all participants to continue building on the foundation laid during this program and explore further opportunities for learning and growth in the field of AI:

COURSE DESCRIPTION

This program is designed to empower educators with the skills to design, develop, and deploy AI solutions using Microsoft Azure. Participants will gain hands-on experience with Azure AI services, including natural language processing, computer vision, and responsible AI principles, enabling them to prepare students for industry-ready AI certifications. The program emphasizes practical knowledge and application, ensuring faculty members can integrate Azure-based AI solutions into their teaching methodologies effectively.

OBJECTIVE

1. Understand the fundamentals of Azure AI services and their application in building intelligent solutions.
2. Develop and manage AI solutions using computer vision, natural language processing, and knowledge mining.
3. Learn to implement responsible AI principles for ethical and compliant AI development.
4. Gain expertise in using Azure tools and services to create scalable, secure, and efficient AI applications.
5. Equip educators with the knowledge to guide students toward achieving the Microsoft Certified: Azure AI Engineer Associate certification.

VIVA INSTITUTE OF TECHNOLOGY

ABOUT THE INSTITUTE

VIVA INSTITUTE OF TECHNOLOGY is approved by AICTE, New Delhi, and DTE, Maharashtra State, and is affiliated with the University of Mumbai. The Institute is awarded a 'B++' grade by the National Assessment and Accreditation Council (NAAC). The institute nurtures a unique education system for creating dynamic leaders for the corporate sector, entrepreneurs, academicians, researchers, and professionals who contribute to the development of society and the nation. This institute believes in empowering young students through a rigorous curriculum, student participation in R & D, a mentor system, value-added programs, and a solid industrial interface.

CIRCULAR

All the faculty members are hereby informed that the ISTE approved One week STTP is arranged on the topic "**Fundamentals of Welding: Mastering the Basics**" from 25-11-2024 to 30-06-2024. All the faculty members are requested to attend the same.

Detailed schedule:

Date	Course Details	Timings
25-11-2024	Inauguration Function	9.00 am-9.30 am
	Fundamentals of the Joining Processes	9.30 am-12.30 pm
	Fundamentals of Welding Processes and their Applications in the Industry	1.00 pm-4.00 pm
26-11-2024 (Online)	Advanced Welding Processes in Additive Manufacturing	9.30 am-12.30 pm
27-11-2024 (Online)	Physical Processes in TIG Welding	9.30 am-12.30 pm
28-11-2024	Hands On Training on WARP IN TIG 4001 Machine (GTAW)	9.30 am-12.30 pm
	Hands On Training on WARP WS 200 Machine (GMAW)	1.00 pm-4.00 pm
29-11-2024	Hands On Training on Sigma Weld 170 TIG Machine	9.30 am-12.30 pm
	Hands On Training on Sigma Weld SW 400 mm Machine	1.00 pm-4.00 pm
30-11-2024	Industrial Visit	9.30 am-12.30 pm
	Industrial Visit	1.00 pm-4.00 pm
	Valedictory function and Vote of Thanks	4.00 pm-4.30 pm

ISTE/Proceedings/STTP/FDP-SF-MAH-133/2024-25

November 18, 2024

Proceedings of Executive Secretary, ISTE

Sub. : Sanction to conduct full time Faculty Development Programme on Self-financing basis for the financial year 2024-2025.

Sanction is hereby accorded to the following institution for the conduct of the Online/SF-STTP/FDP programme indicated below:

Name of Institution	: Viva Institute of Technology Vasai, Dist. Palghar - 401305
Topic	: Fundamentals of Welding : Mastering The Basics
Name & Address of Coordinators	: Dr. Niyati Raut Dr. Chinmay Pingulkar Assoc. Professor Assoc. Professor
Duration	: One Week
Proposed dates	: 25.11.2024 to 30-11-2024

Terms and Conditions

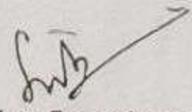

The institution offering the Programmes should be approved by AICTE and must be Institutional Member of ISTE. Institutions having ISTE Faculty Chapter and Students Chapter shall be preferred. There will be no financial commitment on the part of ISTE on account of this programme. The fee of one proposal is Rs. 1180/- (Incl. 18% GST) paid by NEFT/RTGS along with proposal in the following ISTE Account (Name of Account: ISTE Membership Fee, Account No: 6707247614 Bank: Indian Bank IFSC Code: IDIB000M089 Branch: Mehrauli Road New Delhi).

- 1 This will be a Self Financing program of the duration of 1 week/2 weeks/4 weeks.
- 2 The registration fee of the participants may be fixed by the host institution.
- 3 ISTE Life membership is necessary for participants to attend SF programmes. Minimum 25 Participants are must for conducting the FDP/STTP. However, If any participant is not having life membership he/she may take the membership of ISTE before the commencement of the programme via web portal <https://membership.isteonline.in>
- 4 The final report as mentioned in these guidelines is to be submitted to ISTE within 15 days after completion of the Programme.
- 5 The institute should ensure that the Resource Persons should be well known personalities having thorough knowledge and he/she should be from an Institute or Industry.

-2/-

📍 : www.facebook.com/Indian society for technical education

- 6 e-Certificate to ISTE Life Members will be issued by ISTE from this office. Operational and processing fee of Rs. 100 +18% GST (Total Rs. 118/-) will be charged per participant. Institute conducting the program will collect the fee from participants and will send it to ISTE by NEFT/RTGS with list of participants with their ISTE Life Membership Number. Institute conducting program will not issue Certificates with ISTE logo to Participants. Course coordinator is requested to ensure the same and attach payment proof or UTR number.
- 7 At least one test at the end is to be conducted to judge the performance of participants. Institute can conduct more test, if they desire. Attendance and successful completion of Test conducted is mandatory to receive certification by ISTE. Co Ordinator should ensure this while submitting list of participants to ISTE.
- 8 The Digital e-certificates to eligible participants will be sent by ISTE Delhi through organizing Institute. The certificate contains the ISTE logo at the top. The digitally signed e-certificates will bear the Signatures of Executive Secretary, ISTE.
- 9 Covid Guidelines issued from time to time are to be followed strictly as notified by the Govt. during the Programme.

About the Institution

VIVA institute of technology was established in the year 2009 with a definite mission to develop the standard of the institute above benchmark level, latest technology in the chosen discipline by tapping their hidden and obvious potential, molding them into good and responsible citizens by playing a meaningful role in industry and society. The institute is approved by AICTE, New Delhi and DTE, Maharashtra State and affiliated to Mumbai University. The main objective of the institute has always been promoting education at all levels. The institute offers the following courses/programs: Mechanical Engineering, Civil Engineering, Electronics & Telecommunication Engineering and Electrical Engineering, Computer Engineering, Computer Science Engineering (AI & ML) & Department of MCA.

VIVA institute is well equipped with workshop, laboratories, computer center with latest machineries, tools, instruments etc.

About the Program:

The "Fundamentals of Welding: Mastering the Basics" program is designed to provide Participants with a comprehensive understanding of the essential principles, techniques, and safety measures associated with welding. This program integrates theoretical learning with extensive practical sessions, allowing students to develop the skills needed to perform various types of welding with precision and safety. Throughout the course, Participants students will engage in hands-on exercises using industry-standard equipment, while also learning about welding techniques, metallurgy, and welding safety.

In addition to classroom and lab-based learning, the program includes industrial visits, where Participants will have the opportunity to observe welding practices in real-world manufacturing and construction settings. These visits provide valuable insights into how welding is applied in the industry, the challenges faced by professionals, and the importance of quality control in the welding process.

Course objective:

- ✓ Understand the principles and concepts of welding processes.
- ✓ Develop hands-on skills in welding techniques, safety procedures, and equipment operation.
- ✓ Learn to identify and correct common welding defects and errors.
- ✓ Understand welding safety protocols and personal protective equipment (PPE) usage.

Course Contents:

- ✓ **Day 1:**
Fundamentals of the Joining Processes, Fundamentals of Welding Processes and their Applications in the Industry.
- ✓ **Day 2:**
Advanced Welding Processes in Additive Manufacturing
- ✓ **Day 3:**
Physical Processes in TIG Welding
- ✓ **Day 4:**
Hands on Training on WARP IN TIG 4001 Machine (GTAW) & WARP WS 200 Machine (GMAW)
- ✓ **Day 5:**
Hands on Training on Sigma Weld 170 TIG Machine & Sigma Weld SW 400 mm Machine
- ✓ **Day 6:**
Industrial Visits

Resource Persons:

- ✓ **Dr. Vishvesh Badheka,**
Professor, Pandit Dindayal Petroleum University
- ✓ **Dr. Amit Kumar Singh,**
Post-Doctoral Research Associate, University of North Texas, USA
- ✓ **Mr. Vinay Chansikar,**
CEO, Preciworld Mechanical
- ✓ **Mr. Shashikant Gupta,**
Proprietor, Radhika Enterprises

Venue:

VIVA Institute of Technology

Shirgaon, Virar (E), Dist-Palghar
Pin - 401305

Website: www.viva-technology.org

Important Dates

Last date of registration: 20 November, 2024
25 TH - 30 TH November, 2024

Eligibility

PG students, Faculty from engineering, Management and delegates from industry can attend the program.

Course Fee

- Research Scholars or P.G students: Rs. 500/-
- Faculty (ISTE Member): Rs. 500/-
- Faculty (Non-ISTE Member): Rs. 1000/-
- Delegates from the industry: Rs. 1000/-

Topic Name: ISTE Approved One week STTP On "Fundamentals of Welding: Mastering the Basics"

Name of the Guest Speakers: Mr. Vinay Chansikar, Dr. Vishvesh Badheka,
Dr. Amit Kumar Singh, Mr. Shashikant Gupta

Date: 25th to 30th November, 2024

Time: 09.30 am to 4.00 pm

Programme Summary/Details:

A comprehensive, week-long Short Term Training Program (STTP) titled "Fundamentals of Welding: Mastering the Basics" was conducted from November 25th to 30th, 2024. Organized by the Department of Mechanical Engineering at VIVA Institute of Technology, Virar, and approved by the Indian Society for Technical Education (ISTE), the program offered a blend of theoretical knowledge and practical training.

The STTP commenced with a foundational session on joining and welding processes led by Mr. Vinay Chansikar, CEO of Preciworld Mechanicals. He introduced fundamental concepts of welding, brazing, and soldering, and detailed various techniques including Shielded Metal Arc Welding (SMAW), Gas Tungsten Arc Welding (GTAW), Gas Metal Arc Welding (GMAW), and resistance welding. The session also highlighted the extensive applications of welding in industries such as automotive, aerospace, and construction.

The second day featured an online lecture by Dr. Vishvesh Badheka on "Advanced Welding Processes in Additive Manufacturing". Dr. Badheka discussed the integration of 3D printing with welding, focusing on hybrid techniques like laser and metal deposition welding. He emphasized their use in producing lightweight, high-strength components for the aerospace and automotive sectors and touched upon the future of welding in the context of Industry 4.0.

On day three, Dr. Amit Kumar Singh delivered an online session on the "Physical Processes in TIG Welding". He explained the principles of TIG welding, arc physics, and heat distribution, along with material-specific considerations for welding metals like aluminum, stainless steel, and titanium.

The fourth and fifth days were dedicated to hands-on training under the guidance of Mr. Shashikant Gupta, a professional in welding equipment operation. Participants gained practical experience with various machines, including the WARP IN TIG 4001 (GTAW) and WARP WS 200 (GMAW). They further honed their skills on the Sigma Weld 170 TIG machine for precision work and the more powerful Sigma Weld SW 400 mm machine for thicker materials, practicing on both thin sheets and industrial-grade metals.

The program concluded on the sixth day with an industrial visit to provide real-world context. Participants visited Preciworld Mechanicals, where they observed precision manufacturing and the use of TIG and MIG welding in creating complex assemblies. A subsequent visit to Paresh Engineering Industries, led by Mr. Parag Nerurkar, offered insights into welding practices in the piping industry, showcasing the unique

Report

Introduction

ISTE approved a one-week Short Term Training Program (STTP) titled "Fundamentals of Welding: Mastering the Basics". The program took place from 25th to 30th November, 2024, and aimed to equip participants with foundational skills in welding while exploring advanced. The program combined both theoretical sessions and hands-on training to provide a holistic learning experience. The STTP included expert lectures, online sessions, practical demonstrations, and an industrial visit to witness real-world welding applications.

Day 1: (25-11-2024): Fundamentals of the Joining Processes, Fundamentals of Welding Processes and their Applications in the Industry

Speakers' Name: Mr. Vinay Chansikar

Session Overview

The first day of the STTP laid the foundation for understanding welding and joining processes. Mr. Vinay Chansikar, an expert in welding technologies and the CEO of Preciworld Mechanicals, led the session, which focused on the following areas:

Introduction to Joining Processes: Mr. Chansikar introduced the fundamental concepts of joining processes, including welding, brazing, and soldering. The differences and applications of each were discussed, with an emphasis on welding as a dominant technique in industrial applications.

Fundamentals of Welding Processes: The various welding processes were examined in detail, including:

Arc Welding: Shielded Metal Arc Welding (SMAW), Gas Tungsten Arc Welding (GTAW), and Gas Metal Arc Welding (GMAW).

Resistance Welding: Spot and seam welding.

Applications of Welding in Industry: The lecture explored how welding is used across diverse industries such as automotive, aerospace, construction, and heavy machinery. Practical examples from the speaker's own experience in manufacturing and fabrication were shared to help participants understand real-world welding challenges.

Day 2: (26-11-2024): Advanced Welding Processes in Additive Manufacturing (Online)

Speaker's Name: Dr. Vishvesh Badheka

Session Overview

Day 2 featured an online session on Advanced Welding Processes in Additive Manufacturing, delivered by Dr. Vishvesh Badheka, an expert in welding and materials science. Dr. Badheka focused on:

Introduction to Additive Manufacturing: The concept of 3D printing and its integration with welding techniques, particularly in industries that require precision parts.

Advanced Welding Technologies: The role of welding processes in additive manufacturing, with a particular focus on hybrid welding techniques such as laser-welding and metal deposition welding.

Applications in Aerospace and Automotive Sectors: How advanced welding techniques contribute to the production of lightweight, high-strength components for industries like aerospace and automotive.

Dr. Badheka also discussed the future of welding in the context of Industry 4.0, where automation, robotics, and digital technologies are transforming the traditional welding processes. The online format allowed for a global perspective, and participants had the opportunity to engage with the speaker through an interactive Q&A.

Day 3: (27-11-2024): Physical Processes in TIG Welding (Online)

Speaker's Name: Dr. Amit Kumar Singh

Session Overview

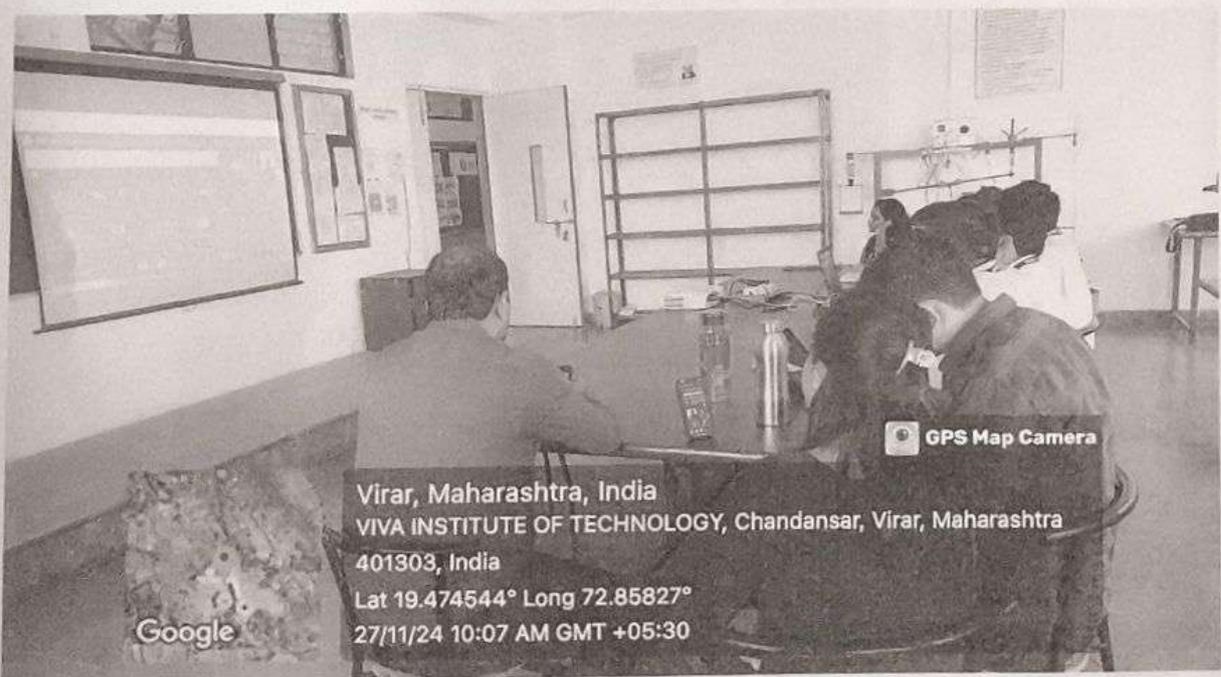

On the third day, Dr. Amit Kumar Singh, an authority on welding metallurgy, took participants through the physical processes in Tungsten Inert Gas (TIG) Welding, conducted online via Google Meet. Dr. Singh's session included:

Principles of TIG Welding: The theory behind TIG welding, including the role of the tungsten electrode, shielding gas, and the heat source. Participants learned how TIG welding is used for high quality, precision welds on thin materials.

Arc Physics and Heat Distribution: An in-depth discussion on how arc formation and heat transfer occur in TIG welding, influencing the quality and strength of the weld.

Material Considerations: Dr. Singh explained how different metals react to TIG welding, including aluminium, stainless steel, and titanium, and the factors that affect weld quality such as heat input and electrode positioning.

The session also touched upon the importance of post-weld cleaning, especially when working with reactive metals like aluminium.

Day 4: (28-11-2024): Hands on Training on WARP IN TIG 4001 Machine (GTAW), WARP WS 200 Machine (GMAW)

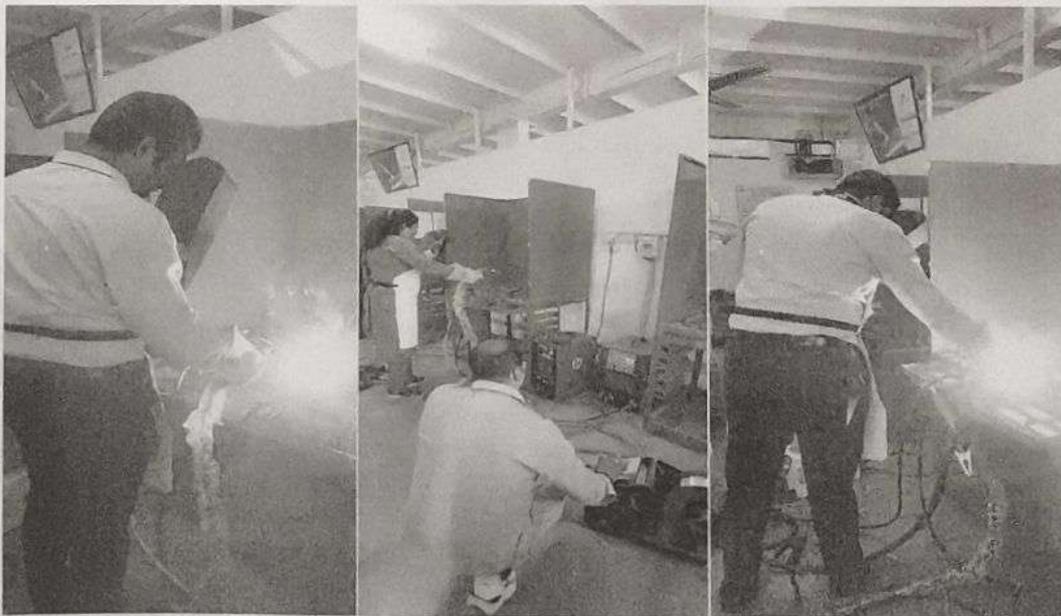

Speakers' Name: Mr. Shashikant Gupta

Session Overview

Day 4 provided a valuable hands-on training session with welding machines under the expert guidance of Mr. Shashikant Gupta, a professional in the field of welding equipment operation. The training was focused on two welding machines:

WARP IN TIG 4001 Machine (GTAW): Participants were trained in Gas Tungsten Arc Welding (GTAW) using the WARP IN TIG 4001. This session allowed them to practice creating precise welds on stainless steel sheets, with an emphasis on controlling the heat input and electrode handling.

WARP WS 200 Machine (GMAW): The session then moved to Gas Metal Arc Welding (GMAW) using the WARP WS 200 Machine. Participants learned about the MIG welding process, including wire feed control, arc length, and metal deposition rates. Mr. Gupta demonstrated how to adjust settings on both machines to achieve optimal weld bead quality and participants practiced welding under supervision.

Day 5: (29-11-2024): Hands on Training on Sigma Weld 170 TIG Machine, Training on Sigma Weld SW 400 mm Machine

Speakers' Name: Mr. Shashikant Gupta

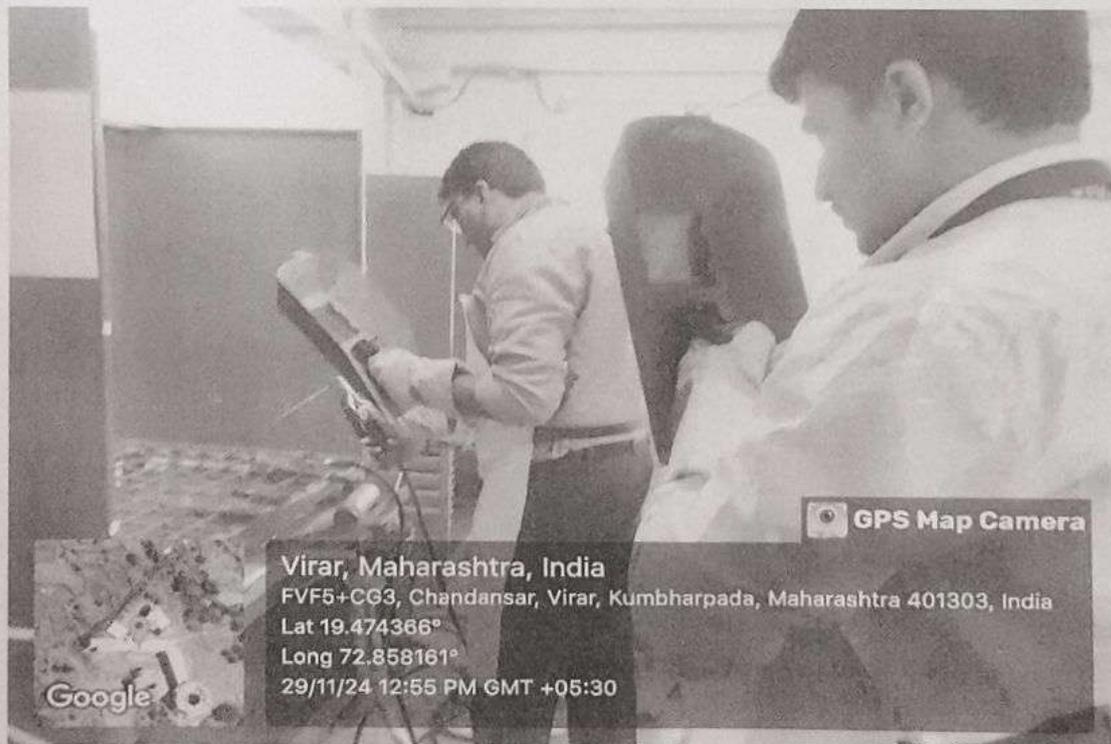

Session Overview

Building on the previous day's training, Day 5 provided further hands-on experience with advanced welding equipment:

Sigma Weld 170 TIG Machine: The focus was on refining the techniques learned on the TIG machine, using the Sigma Weld 170 to create precise welds on thin metal sheets. Participants practiced controlling the arc and improving their technique for aesthetic and strong welds.

Sigma Weld SW 400 mm Machine (GMAW): In addition to TIG welding, participants were introduced to a more powerful MIG welding machine, the Sigma Weld SW 400 mm. The focus was on thicker metal welding, such as in industrial pipe and structural welds.

This hands-on session was critical in providing participants with practical welding experience, allowing them to apply the concepts they had learned over the past few days.

Day 6: (30-11-2024): Industrial Visit at Preciworld Mechanicals and Paresh Engineering Industries.

Overview

The final day of the program offered participants an excellent opportunity to witness welding processes in real-world industrial settings. Two industrial visits were arranged:

Preciworld Mechanicals: Mr. Vinay Chansikar, the CEO of Preciworld Mechanicals, guided participants through a tour of the company's facilities. Participants observed various welding processes employed in precision manufacturing, including TIG and MIG welding techniques used for creating complex assemblies.

Subject: Budget for STTP

Dear Sir,

The Electrical Engineering and EXTC department of VIVA Institute of Technology is organising ISTE Approved one Week STTP on “**Power Load Forecasting Using Machine Learning**” from 4th November to 11th November 2024.

The detailed expenditure is as follows:

1	Proposed Date	4th to 11th November 2024
2	Number of days	6 Days
3	Proposed honorarium to the guest per Session	2000
4	Total honorarium	6*2000 = 12000
5	ISTE Permission fees	1,180/-
6	Course Fee (118 x 17)	2006/-
	Total Expenditure	15,186/-

Kindly permit us to conduct this STTP.

Thanking you,

Yours Truly,

Prof. Bhushan Save

Conference Report NCRENB-2025

Conference Dates: 7th & 8th March 2025

Mode of Conference: Offline

The role of engineers extends beyond conventional boundaries, shaping the modern world through advancements in communication and computing technologies. In the 21st century, innovations such as mobile phones, digital broadcast radio, and high-definition television have significantly enhanced everyday life. Science and Technology (S&T) serve as key drivers of industrial, economic, and social progress, making collaboration between universities, research institutions, industries, and governments essential. Strengthening these partnerships can accelerate sustainable development across various sectors, ensuring that technological advancements contribute effectively to economic growth, societal well-being, and industrial innovation.

NATIONAL CONFERENCE ON ROLE OF ENGINEERS IN NATION BUILDING 2025 (NCRENB- 2025)

The National Conference aims to advance knowledge in building sciences, particularly in construction, by addressing long-term sectoral challenges through systematic research and development. It also seeks to provide expert support for immediate industry needs and promote knowledge dissemination and technology transfer, fostering innovation and sustainable growth in the field.

Topics of Interest in NCRENB 2025 are as follows:

- 1 Civil Engineering
- 2 Computer Engineering
- 3 Electrical and Computer Engineering
- 4 Electronics and Telecommunication Engineering
- 5 Humanities & Applied Science
- 6 Master of Computer Application
- 7 Mechanical Engineering

NCRENB 2025 was organized in association with University of Mumbai, VIVA-Tech IJRI and ICT Academy.

Conference Statistics:

Track wise Paper Statistics: Selection

Total Accepted Papers	107
Acceptance Rate	91.45%

A total of 117 papers were submitted, out of which 107 were accepted. The submission process was conducted online via the system at ncrenb@viva-technology.org. Plagiarism checks were performed using Plagiarism Checker-X software. Each paper underwent a rigorous review process, receiving evaluations from both internal (VIVA TECH) and external reviewers, ensuring a minimum of two reviews per paper. The external reviewers were esteemed experts with extensive experience in the field. The final approval for uploading papers to VIVA-TECH IJRI was granted by the program convener, Dr. Arun Kumar. Additionally, selected papers will be published in a UGC CARE journal.

Summary

The 13th edition of the National Conference on Role of Engineers in Nation Building (NCRENB) was successfully held at VIVA Institute of Technology, Virar, on March 7th and 8th, 2025. Organized annually in March by VIVA Institute of Technology, this year's conference was conducted in collaboration with University of Mumbai, ICT Academy and VIVA Tech IJRI. The event provided a valuable platform for students and researchers to present their work to peers and experts, alongside seminars focused on the role of college students in nation-building.

This year's conference saw participation from 107 researchers and students across multiple disciplines, including Electrical Engineering, Computer Engineering, Electronics & Telecommunication Engineering, Mechanical Engineering, Civil Engineering, and Master of Computer Applications. The event began with an inaugural ceremony featuring the traditional lamp lighting and Saraswati Poojan, attended by the Principals of VIVA Campus. Dr. Arun Kumar, Principal of VIVA Institute of Technology, welcomed the dignitaries and attendees.

The keynote session was delivered by Dr. Surendra Singh Rathod, Principal of Fr. C.R.C.E., Bandra (West), Mumbai, who spoke on the theme "**Engineers as Guardians of the Future.**" Following this, students presented their research papers across various departmental sessions.

The conference concluded on March 8, 2025, with a closing ceremony where awards were presented for the best research papers in each category. Additionally, the **Best Student of the Year Award** was announced, recognizing outstanding academic and research contributions.

Conference Overview:

- **Expected Delegates:** 107 (Registered)
- **Total Attendees:** 171
- **Turnout Percentage:** 160%
- **Total Resource Persons:** 12

The event was a resounding success, fostering research discussions, knowledge exchange, and academic collaboration.

Conference Feedback

The conference received highly positive feedback from delegates, with appreciation for various aspects of the event:

- **Technical Content:** Delegates praised the depth and research-oriented nature of the presentations.
- **Creativity:** While creativity was evident, suggestions were made for further enhancement in future editions.
- **Hospitality:** The hospitality was exceptional, creating a welcoming and comfortable experience for all attendees.
- **Staff Support:** The organizing team and staff were highly cooperative, providing valuable assistance throughout the event.

The overall response highlighted the event's success in delivering quality research discussions, fostering collaboration, and ensuring a seamless experience for participants.

TECHCHASE 2024

Event Name: "Evolving Odyssey"

Event Code TCE16

Description: "Evolving Odyssey" is a thrilling, futuristic game where two teams of three players each embark on a journey through various levels, each representing a different branch of engineering. As the team's advance, they must apply their knowledge and skills to solve increasingly complex challenges. The final level is centered on Artificial Intelligence and Machine Learning (AIML), where the ultimate test awaits. The theme, "Leap into the Future," drives the players to innovate, collaborate, and outsmart their opponents to win the game. Only the most cohesive and forward thinking team will emerge victorious in this epic competition.

Winners: 1st Rank: Ram & Luv Kush (COMPS)

2nd Rank: Soham Bagve & Soham Bane (TE AIML)

3rd Rank: Alok & Harshit (SE AIML)

Report on Techchase-2024

Introduction

The TechChase event held at Viva Institute of Technology in Virar on August 30th and 31st, 2024, was a remarkable showcase of innovation, creativity, and competitive spirit. Organized by the institute's technology club, the event brought together students from various departments to participate in a series of challenging and exhilarating games. The competition was designed to test participants' problem-solving skills, technical acumen, and teamwork. The three featured games werBlock Puzzle, Electric Cyclone, and Scream Spectrum, each adding a unique dimension to the event.

Event Overview

The TechChase event spanned two days, creating an energetic and engaging environment for all participants. The venue was adorned with vibrant banners and tech-themed decorations, setting the stage for an exciting array of challenges. The event schedule was meticulously planned to ensure smooth transitions between games and maximize participant engagement. Each game was designed to push the boundaries of traditional problem-solving and incorporate elements of technology and innovation.

Games and Challenges

The Block Puzzle game was a test of logic and spatial reasoning. Participants were given a series of jigsaw-like puzzles, each with unique shapes and patterns. The challenge was to fit all pieces into a predefined space without leaving any gaps.

Telephone: (0250)-6990999 website- www.viva-technology.org

ACCREDITED by NAAC with GRADE "B+ +"

DEPARTMENT OF ELECTRICAL ENGINEERING

1. Electrical Block Connector

The game was timed, adding an element of urgency and excitement. Contestants demonstrated impressive strategic thinking and quick problem-solving skills. The Block Puzzle game saw intense competition, with participants employing various techniques to solve the puzzles efficiently.

Sr No.	Name of the student	Branch	Rank	Time
1.	Ankita Lihitkar	Electrical	1 st	1.20 min
2.	Janhavi Ovalkar	EXCT	2 nd	1.28 min
3.	Nilay Bhoir	Electrical	3 rd	1.33 min

2. Electric Cyclone

Electric Cyclone was a high-energy game involving a complex circuit board challenge. Participants were tasked with assembling a functional electrical circuit from a set of components, which included resistors, capacitors, and LEDs. The goal was to create a working circuit that would power a small motor and generate a visual display. The game required a solid understanding of electronics and precise assembly skills. The complexity of the circuits tested participants' technical knowledge and their ability to troubleshoot issues under pressure.

ACCREDITED by NAAC with GRADE "B+ +"

DEPARTMENT OF ELECTRICAL ENGINEERING

2.	Ankita Lihitkar	Electrical	2 nd	3
3.	Prasad Mirgal	Electrical	3 rd	3

3. Scream Spectrum

Scream Spectrum was the most innovative and dynamic of the three games. It combined elements of sound recognition and frequency analysis. Participants had to use a sound sensor to detect and analyze different frequencies of sounds. The challenge was to accurately identify and categorize various sound patterns, which required a keen ear and quick reflexes. The game was both challenging and entertaining, providing a unique twist on traditional tech games.

Sr No.	Name of the student	Branch	Rank	Level
1.	Tanmay Tamhankar	Civil	1 st	6+
2.	Sahil Singh	EXCT	2 nd	5.8
3.	Manas Pawar	Electrical	3 rd	5.7

Achievements and Recognition

Among the games, Scream Spectrum emerged as a standout performer. The team participating in Scream Spectrum showcased exceptional skill and precision in identifying and analyzing sound frequencies. Their performance earned them the 3rd prize in the overall departmental games, reflecting their strong grasp of the game's complexities and their ability to perform under pressure. This achievement was celebrated with great enthusiasm, and the team was applauded for their innovative approach and technical expertise.

Conclusion

The Techchase event at VIVA Institute of Technology was a resounding success, marked by enthusiastic participation and impressive performances across all games. The inclusion of Block Puzzle, Electric Cyclone, and Scream Spectrum provided a comprehensive platform for students to demonstrate their problem-solving abilities and technical skills. The recognition of Scream Spectrum with the 3rd prize was a testament to the participants' hard work and dedication. The event not only highlighted the talent within the institute but also fostered a spirit of innovation and teamwork. It was a memorable two days that showcased the vibrant and dynamic tech community at VIVA Institute of Technology.

TECH-CHASE 2024

Event:- 1 BRIDGE STORM CHALLENGE

Combination of Brainstorming" and "Bridge-O-Mania"

Description 1: Brainstorming

- Multiple technical task is involved in these rounds.
- Team upon completion of task moves to next rounds.
- Fastest one to clear the round wins rewards which will need for second round. (eg. Ice cream sticks)

Rules:

- 1) In first round their will 4 sub round.
- 2) Bonus round will be considered during tie breaker, it depends on time.
- 3) Every round will be based on time.
- 4) Judge's decision will be last decision.

Description 2: Bridge-O-Mania

- A bridge structure is to be constructed. It can be suspended and It has to sustain the loads.
- Participant can build any type of bridge. Structure should bare minimum load of 3 kg. Effective span of bridge should be 1m.

Rules:

- 1) Popsicle sticks, 2- wooden blocks, thread, glue will be provided. Please get all the rest stationary you require.
- 2) Not compulsory to use all items provided.
- 3) Structure should bear maximum load
- 4) Participants can any type of bridge.
- 5) Calculation is required.
- 6) 1 m long bridge with effective span of 70 cm.
- 7) Structure should bear minimum load (example 3 kg.)
- 8) Three chances will be given to increase the loading.

NAAC ACCREDITED With GRADE B+ +

Department of Civil Engineering

Note: Materials will be provided by us. Participants should carry their stationary materials.

Participation: **3 to 4 members**

Time Limit: **2 hours**

Amount: **30 rupees**

TECHNICAL OUTCOMES:

Students will be able to understand following concepts:

- Structure of truss bridges and suspension bridges.
- Load distribution over the bridge.
- Design of bridge for maximum stability.
- Design of bridge for maximum safe loading
- Using available knowledge in civil engineering for problem solving.
- Development of faster reflexes and teamwork skills.

NAME OF ITEM	QTY	UNIT	AMOUNT
ICE CREAM STICKS	4	250	1000
GLUE	30	15	450
SCISSORS	25	20	500

Report on Techchase Event 2k24

Date: 30th and 31th August, 2024

Time: 8:45 AM to 4:30 PM

Venue: 307, Project lab, 3rd Floor, Department of Computer Engineering, VIVA Institute of Technology.

Event Name: Visionary Voyage.

Entry Fee: 10/-

Total No Of Participants: 60 (solo player)

Event Overview:

Visionary Voyage 2024, held at the prestigious VIVA Institute of Technology, was a thrilling two-day event that captivated participants with its challenging and innovative levels. This competition tested participants' skills in problem-solving, creativity, and technical knowledge across a series of engaging and immersive games. Teams competed through multiple stages, each designed to push their limits and showcase their prowess.

Day 1:

Level 1: Gesture Sense

Participants began their journey in a high-tech control room where they had to set a secure password using hand gestures. The challenge required accuracy and quick reflexes to log into the system. Successful completion allowed them to proceed to the next level.

Level 2: Air Canvas

In this inventive challenge, participants are introduced to a futuristic control system where air gestures are used to interact with virtual elements. They must manipulate a digital canvas using hand movements to send signals and achieve specific tasks. This level combines creativity with precision as participants navigate through the air canvas, requiring them to make accurate gestures to control and configure the system effectively. Success in this level demonstrates their ability to adapt to novel technologies and perform under unconventional conditions.

Level 3: Command Clash

In this dynamic round, participants faced a series of commands from a sophisticated system. They had to perform tasks based on these commands as quickly and accurately as possible. The first team to complete the tasks and confirm their execution was allowed to advance, demonstrating their ability to respond under pressure.

Level 4: CrypticQuest

Participants were then tasked with decoding an encrypted message received from the system. Using cryptographic techniques, they needed to decipher the message to uncover vital information that would help them in future levels. This round tested their analytical skills and understanding of cryptographic principles.

Day 2:

Final Level : Rylak Hunt

The final level, Rylak Hunt, immersed participants in a dystopian world where they faced the perilous machine named Rylak. In this level, they had to navigate a grid where every move counted. They could not move backward once a grid was visited. The objective was to locate and eliminate Rylak while avoiding hidden pitfalls and obstacles. Participants needed to use their problem-solving skills and strategic thinking to succeed.

Winners:

- 1st Place: Rahul Yadav (BE Comps)
- 2nd Place: Pranita Lad (TE Comps)
- 3rd Place: Vikrant Pawar (BE Comps)

Closing:

Visionary Voyage 2024 was a resounding success, providing an exhilarating experience for all participants. The event highlighted the participants' technical skills, strategic thinking, and teamwork. The organizers extend their congratulations to the winners and their gratitude to all the participants and supporters who made the event memorable.

Report on Techchase Event 2024

Date: 30th and 31st August, 2024

Time: 8:45 AM to 4:30 PM

Venue: 309, 3rd Floor, Department of Computer Engineering, VIVA institute of Technology.

Event name: Virtual Vault.

Entry fee: 20/-

Total No. of Participants: 50 Teams (3 members each team)

TechChase 2024, hosted at the prestigious VIVA Institute of Technology, witnessed an exhilarating event known as "Virtual Vault." This remarkable event brought together technology enthusiasts, students, and professionals from diverse backgrounds to explore the realms of future technology, fostering a memorable and enjoyable experience for all participants. It was an event where technology and subject's concepts melded seamlessly, offering an unforgettable experience that blended education with pure. A trio embarked on a time-travel adventure and stumbled into a futuristic escape room. The moment they entered, the door locked behind them, and a holographic voice revealed they were trapped in a time anomaly. To return to their original timeline, they had to solve a series of intricate puzzles, including encrypting codes, matching digital patterns, and doing multiple tasks to make the system work.

Round 1 day 1 with 3 levels.

The journey kicked off with the Pass-code Pursuit Challenge. Teams of three were required to answer some general knowledge and technical questions displayed on a digital screen, once they answer all the questions they will get a code which will be used later in their escape procedure, progressing to the next level. Level 2 introduced the Memory Matrix challenge. Teams had to match the sequence of flashing tiles displayed on the screen. In this level participants had to match the sequence 7 times. After matching each pattern it becomes more and more difficult to remember the sequence as its flashing becomes faster. If the sequence doesn't match, the team has been disqualified. After conquering this level, teams moved on to the final challenge.

CSI VIVA-TECH

In the System Overdrive, teams performed two tasks, first was to arrange the machine's keys in their appropriate places, second was to find a missing java file in the machine to run the code successfully. Teams need to complete all these tasks in minimum time to qualify for day 2.

Final round 2 was on day 2 with only one 1 level.

On Day 2, the enthusiasm continued with "Magno Miners," in which one of the team members has to pick up an egg with the help of electromagnet. In that egg there is a question which the team has to answer the more the questions answered in the given time the more the chances of winning. Participants were so competitive on day 2 too for winning as they were trying their best to give answers to the questions taken out of the eggs.

Winners: 1st- Vikrant Pawar (BE Comps)

Report on Techchase Event 2024

Date: 30th and 31th August, 2024

Time: 8:45 AM to 4:30 PM

Venue: 303, 3rd Floor, Department of Computer Engineering, VIVA institute of Technology.

Event name: TechChronicles.

Entry fee: 30/-

Total No. of Participants: 22 Teams (4 members each team)

TechChase 2024, hosted at the prestigious VIVA Institute of Technology, witnessed an exhilarating event known as "TechChronicles." This enthralling event served as an occasion for bringing together all the technology enthusiasts, students, and professionals from diverse branches to embark on an enlightening journey through time. It was an event where technology and imagination melded seamlessly, offering an unforgettable experience that blended education with pure. A squad of four embarked on a thrilling journey through time where they were challenged by various technical based tasks at every stage of the game. The players played the role of engineers that are stuck in the ancient era due to some malfunctioning in their time machine. The players had to fix the issue in the time machine and then solve some technical tasks at the ancient, medieval and modern era stages of the game. The main aim of the players turned engineers was to reach the final stage of the game that was the future era and experience various future technologies and fix the issues in them. The teams which utilized the minimum time qualified for round 2 on the day 2.

Round 1 day 1 with 4 levels.

The journey through the time kicked off by the voice assistant narrating the situation to the players that they are stuck in the ancient era due to some issue in the time machine. The team were informed that they had to solve the basic breadboard circuit and make the buzzer buzz by giving the correct input combination to the two gates placed in the circuit. The buzzing of the buzzer indicated the time machine being restored. In the second game of stage 1 the team were given an ancient hieroglyphic pattern which they had to decrypt using the guide provided and some Caesar cipher.

Upon the completion of the task the team now jumped into the medieval era where they had to solve two puzzles, the first being the N-queen and the second being the Tower of Hanoi. Upon solving of both the puzzles the team now jumped into Stage 3 which was the modern era. Here the team first had to solve the maze game given on the computer interface by arranging the given steps of a pseudocode which consisted of conditional statements in a former logical order. Upon solving the whole puzzle, the teams were then instructed to arrange the provided 8 files in a tree hierarchy based on the conditions instructed to them. Here stage three of the game came to an end. Upon reaching the final stage of the game i.e. the Future era the team first encountered a Quantum Computer which they had to fix by solving numerous questions based on the knowledge they interpreted regarding the quantum computer concepts and gates. Next, they had to locate a mysterious country on the computer interface with the aid of an AI. The final task of the last stage and the entire game was to fix a Brain Computer Interface by traversing a neural network graph while spending minimum energy and solving a small technical task at each node based on basic technical concepts. This unpredictable and fun challenge tested participants' critical thinking, logical skills and teamwork to the fullest.

Final round 2 was on day 2 with only one 1 level.

On Day 2, the excitement continued with “Wikipedia Rush” where the teams qualified after the completion of round 1 on the day 1 had to start from the Wikipedia page of the word, they decrypted in the stage 1 of round 1 and had to reach the Wikipedia page of the country they had located in the stage 4 of round 1. The top three teams that expended minimum time were declared as winners.

3rd Rank: Harshali Patil & Team (SE AIML)

CIVIL ENGINEERING DEPARTMENT

Project Competition: AAKAAR 2K25

Date: 05.04.2025

Time: 10am onwards

Event Judge: Mr. Abhijit Wasave

Firm: Aaradhya Associates

Event Coordinator: Mrs. Arathy H Menon

Programme Summary:

Project Competition AAKAAR2K25 was organised by Civil Engineering Department at VIVA Institute of Technology on 5th April 2025. The event was inaugurated by HOD, Prof. Akshay Mistry. 36 groups were registered for the event. Students showcased their projects, demonstrating creativity, technical expertise, and problem-solving skills.

Project were categorised into major and minor, and judging was done accordingly. The judging panel observed the presentation of each group and discussed the scope of each project and its practical applications.

First three prizes were given to major and minor categories of projects. The event was very successful and concluded with the validatory function.

Inauguration of AAKAAR2K25

Sub: Invitation as a Judge of Project Competition.

Respected Sir,

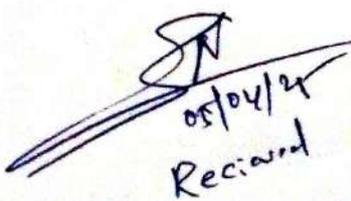

VIVA Institute of Technology established in the year 2009, nurtures a unique system of education for creating dynamic leaders in the corporate sector, entrepreneurs, academicians, researchers and professionals who contribute to the development of society and the nation. The institute is affiliated to the University of Mumbai and approved by AICTE, New Delhi, and DTE, Govt. of Maharashtra. It offers courses such as Mechanical, Electrical & Computer, Electronics & Telecommunication, Civil, Computer Engineering, Computer Science & Engineering (Artificial Intelligence & Machine learning), M.C.A. and M.E.in Mechanical (Manufacturing Systems Engg.)

This institute believes in empowering young students through rigorous curriculum, students participation in R & D, mentor system, value added programs and strong industrial interface.

I am pleased to invite you as a Judge for the Project Competition AAKAR 2K25 organized by Civil Engineering Department. Schedule of the Competition will be on 4th April 2025 Saturday at 9:00 am onwards. Your expertise and presence will significantly enrich the discussions and enhance the learning experience for all the participants.

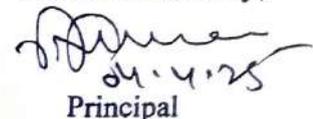

Looking forward to your positive response and hope to have the privilege of hosting you at AAKAR 2K25

Thanking You.

Respected Sir,

We are grateful to you for your valuable time and effort for gracing us as a guest judge. The CIVIL Engineering department thanks you for being a part of "Project Competition AAKAR 2K25" on 5th April 2025 at VIVA Institute of Technology, CIVIL Engineering Department.

Hope for similar support in the future too.

Thanking you.

Yours faithfully,

Department of Information Technology,
VIVA College.

Respected Mam,

I hope this message finds you well. I am writing to invite you to be a **judge** for an upcoming engineering project competition **Imperia**. As someone who is highly respected in the field of engineering, we would be honored to have you as a judge for this event.

The competition will feature some of the brightest and most innovative engineering projects from students who are eager to showcase their skills and talents. As a judge, you would have the opportunity to evaluate and provide feedback on these projects, helping to inspire and motivate the next generation of engineers.

The event will be held on **5th April 2025** at **VIVA Institute of Technology, Virar East** starting from **9 AM**. We anticipate that it will attract a large audience of engineering enthusiasts and professionals. Your expertise and knowledge in the field of engineering would be invaluable to this event, and we would be grateful for your participation.

If you are interested in accepting this invitation, please let me know at your earliest convenience. I would be happy to provide you with additional information about the event, including the judging criteria and format.

Thank you for your consideration, and we hope to hear from you soon.

Regards,
CSI VIVA-Tech

Report on Event(Imperia 2025) 2024-25

Date: 5th APRIL 2025

Time: 10.00 AM onwards

Venue: VIVA Institute of Technology

Event: Imperia 2025

No of participants: 79

The CSI-VIVA successfully organized the event “Imperia 2025” on 5th April at the Computer Engineering Department, VIVA Institute of Technology. Imperia is an event where students from the department present their major and mini projects, offering them an exceptional platform to showcase their technical skills and innovative ideas. The event encourages students to work on practical and creative projects, helping them enhance their knowledge while boosting their confidence.

This program, initiated by CSI-VIVA, has been successfully organized for the fifth consecutive year. Participants were required to submit their abstracts in advance, with the final selection based on the relevance and quality of their projects. Each project was allocated 5 minutes for presentation, followed by a question-and-answer session with the panel of judges. The judges, consisting of esteemed faculty members, evaluated the projects based on innovation, practical application, and presentation quality.

The judges were impressed with the high level of creativity and technical expertise displayed by the participants, praising the students for their innovative ideas and well-executed projects. Constructive feedback was also provided to help the participants refine their future projects and foster further growth in their technical skills.

The intercollegiate project competition proved to be an excellent opportunity for students to showcase their talents and gain valuable insights from other participants' projects. It not only allowed them to present their work to a broader audience but also provided a platform to learn from others and broaden their perspective.

Overall, Imperia 2025 was a valuable learning experience for the students, providing them with new insights and skills that will be beneficial throughout their academic and professional journeys. The event saw a large participation from the department staff and students of SE, TE, BE, and Diploma in Computer Engineering, making it a great success.

Overall it was a Knowledgeable Event.

Thanking You

Respected Madam,

We are grateful to you for your valuable time and effort for evaluating the projects registered for "Imperia 2025" project competition organized by the Department of Computer Engineering along with CSI VIVA-Tech for Computer Engineering students on 5th April, 2025 at 09:00 am onwards. Your valuable insights and feedback not only helped in fair evaluation but also provided us with meaningful learning opportunities. Your dedication to supporting innovation and encouraging participants is truly commendable. Thank you for your contribution to making this event a success!

Hope for similar support in future too.

Thanking You.

ELECTRONICS AND TELECOMMUNICATION CONVERGENCE 2025

Name : Mr. Prince Gautam
Designation : Deputy Manager-Electronics Design
Company Details : Godrej and Boyce Manufacturing Company Ltd., Plot 13
Annexe, Pirojshanagar, Vikhroli,
Mumbai 400079
Email Id : princeg3618@gmail.com
Mobile : +91 7506045484

Programme Details:

Oscillations-Convergence 2025 is an inter collegiate event which include different track as Major project , Minor project , Poster making and Reel making competition. Various colleges took part in the competition. Students of EXTC branch were competing in 4 fields of competition at VIVA Institute of Technology.

The major project competition was organised specially for the BE students who showcased their final major projects. In the minor project competition TE and SE students were competing. In poster making competition students showcased their projects in the form of attractive posters which provided information about their projects. Reel making competition was an interesting one and was judged on the basis of virality factor of the video.

Indeed it was an amazing event where different projects related to different topics were at display like robots, IOT based, drones, software based systems. The event ended with the deserving projects winning exciting cash prizes. Total 66 participants participated. Registration was done form 3 external colleges.

- Minor Project Competition:** 30 Groups Participated
- Poster Competition:** 22 Groups Participated
- Reel Competition:** 8 Groups Participated
- No of students participated:** 128

Department of Mechanical Engineering MechXplore Project Competition

Date: 05 / 04 / 2025
Time: 10.00 Onwards
Event Coordinator: Mr. Pratik Raut and Mr. Priyank Vartak
Student Coordinator: Sujal Pawar, Kshitij Pawar

Programme Summary/Details:

The MechXplore project competition was organized by the Department of Mechanical Engineering at VIVA Institute of Technology on April 5th, 2025. The event provided students from various colleges an opportunity to present their project ideas to industry experts from different domains.

Dr. Niyati Raut, the HOD of Department of Mechanical Engineering, inaugurated the competition in the presence of participants and faculty members from the department. A total of 17 groups had registered for the Major Project category, and 12 groups had registered for the Mini Project category in the competition, which was judged by Mr. Pramod Shetty from "Sams TechnoMech Pvt. Ltd.".

The first prize in Major Project category was awarded to the project "Optimization of Crash Box By Changing it's Design & Material," while the second prize went to "Sanitary Pad Disposal Machine" and the third prize was shared between "Design and Development of Customized 3D Printed Knee Joint" and "Design and Fabrication IOT Based Automatic Kaju Katli Making Machine". Also, the first prize in Mini Project category was awarded to the project "A Demonstration of Portable EDM Machine" while the second and third prizes went to "Automatic Pet Feeder" and "Emergency Braking System" respectively.

Subject: Request for being resource person for Guest Lecture.

Respected Sir,

VIVA INSTITUTE OF TECHNOLOGY is approved by AICTE, New Delhi, and DTE, Maharashtra State and affiliated to the University of Mumbai. It nurtures a unique system of education for creating dynamic leaders for the corporate sector, entrepreneurs, academicians, researchers and professionals who contribute to the development of society and the nation. This institute believes in empowering young students through rigorous curriculum, students participation in R&D, mentor system, value added programs and strong industrial interface.

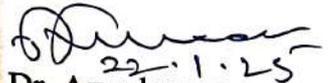

On behalf of Viva Institute of Technology, Computer Science and Engineering (AI & ML) department, we are organizing a Guest Lecture for our Third Year students. I am pleased to invite you as a resource person for the topic of " **Employability Opportunities and Demands in IT Sector** " on 23 January 2025. Your interaction with our students will be value adding and they will cherish your words throughout their lives.

Looking forward to your positive reply.

Thanking You.

Yours faithfully,

Subject: Letter of Appreciation.

Respected Sir,

We are really grateful to you for your valuable time and effort for delivering a Guest Lecture on “**Employability Opportunities and Demands in IT Sector**” for our student of TE Computer Science and Engineering (AI & ML) Department on 23 January 2025.

Your session was very informative, knowledgeable and motivating. Our students will cherish your value by adding words in their hearts.

Hope for similar support in future too.

Thanking you.

Yours faithfully,

Dr. Arun Kumar
Principal
