

Department of Computer Science Engineering (AI &ML)

Topic Name:	Angular Javascript For Web Building
Name of the Guest Speaker:	Mr. Nitesh Kumar
Designation:	Asst. Professor
Organization/Institution:	VIVA Institute of technology, Virar
Date:	09 Oct 2024
Time:	11.00 am to 1.00 pm

Course Objective:

- To introduce the fundamentals of Angular as a modern JavaScript framework for web development.
- To explain key Angular concepts such as components, templates, modules, data binding, and dependency injection.
- To demonstrate how Angular simplifies the creation of dynamic, responsive, and scalable single-page applications (SPAs).
- To highlight the industry relevance of Angular and its role in building interactive, user-friendly web applications.

Outcomes:

- Understand the core architecture and features of Angular.
- Apply Angular concepts to develop dynamic and responsive web applications.
- Utilize data binding and dependency injection to simplify web app development.
- Recognize the advantages of Angular in creating scalable single-page applications.
- Explore career opportunities and real-world use cases of front-end frameworks in modern software development.

Programme Summary/Details:

The Department of CSE (AI & ML) Engineering of VIVA Institute of Technology organized a guest lecture on the topic “Angular JavaScript for Web Building”. The session introduced students to Angular, a powerful JavaScript framework widely used for building dynamic, responsive, and scalable web applications. The resource person explained the core features of Angular, including components, templates, modules, data binding, and dependency injection. Students also gained insights into how Angular simplifies single-page application (SPA) development and enhances user experience through its structured approach. The lecture highlighted the importance of Angular in modern web development, its industry relevance, and its role in creating interactive applications. Real-world examples and demonstrations made the session engaging and easy to follow. The programme was highly beneficial, as it not only helped students strengthen their understanding
