Date & Time	2 nd Feb 2026, 11 am to 1 pm
Number of Students:	53

Programme Summary / Details:

The Department of Electronics & Telecommunication Engineering, VIVA Institute of Technology, organized an expert session on "**Stop Chasing Trends, Start Building a Career in IT**" on 2nd February 2026.

The session was organized to help students understand the importance of long-term career planning in the IT field. The session focused on building strong fundamentals, developing relevant skills, and making informed career decisions instead of blindly following short-term trends.

Session Highlights

- The speaker explained the difference between **trends** and **sustainable career paths** in IT.
- Students were guided on the importance of **core concepts** such as programming fundamentals, problem-solving, and logical thinking.
- Real-world examples were shared to show how trends change, but **skills remain valuable** over time.
- The session highlighted various IT career options like software development, data analytics, cybersecurity, cloud computing, and AI.
- Practical advice was given on **skill development, certifications, internships, and continuous learning**.
- Students were encouraged to focus on **interest, consistency, and growth mindset** rather than quick success.

Impact on Students

- Students gained **clarity** about choosing a career path based on skills and interests.
- The session helped reduce confusion created by social media and rapidly changing IT trends.
- Many students felt **motivated and confident** to invest time in learning core IT skills.
- It encouraged students to plan their careers strategically and think long-term.
- Overall, the session positively influenced students' mindset toward career building in IT
- Students developed a **more realistic understanding** of career growth in the IT industry.
- The session helped students identify their **strengths and interests** before choosing a specialization.

VIVA Institute of Technology
Approved by AICTE New Delhi, Recognized by DTE, Govt. of Maharashtra
And Affiliated to University of Mumbai
NAAC "B++" Grade

The session was highly informative and inspiring. The speaker presented complex ideas in a simple and relatable manner. Students appreciated the practical guidance and real-life examples shared during the session. The organizers deserve appreciation for arranging such a valuable and career-oriented program. The speaker's interactive approach kept students engaged throughout the session. The session successfully connected theory with real-world industry expectations. Students appreciated the honest guidance about challenges as well as opportunities in IT.

The session **"Stop Chasing Trends, Start Building a Career in IT"** successfully emphasized the importance of building a strong foundation for a stable and rewarding IT career. It encouraged students to focus on skills, learning, and long-term goals rather than temporary trends. Such sessions play a crucial role in shaping students future and preparing them for the dynamic IT industry.

Subject: Letter of Appreciation.

Dear Sir,

We are really grateful to you for your valuable time and effort for delivering a Guest Lecture on "Stop Chasing Trends, Start Building a Career in IT" for our Electronics & Telecommunication Engineering students on 2nd February 2026. Your session was very informative, knowledgeable and motivating. Our students will cherish your value adding words in their hearts.

Hope for similar support in future too.

Thanking you.
