

Department of Electronic & Telecommunication Engineering

Topic Name:	Workshop on Collaborative Problem Solving
Name of the Person:	Ms. Vaishnavi Jadhav and team
Organization/Institution:	Senior Ignator, Agastya Foundation
Date & Time	18 th March 2026, 9 am to 4 pm
Number of Students:	49

Programme Summary / Details:

The Department of Electronics & Telecommunication Engineering, VIVA Institute of Technology, organized one day workshop on **"Collaborative Problem Solving"** on 18th March 2026 at 9:00 AM in Seminar hall for Second year Engineering students.

The workshop was organized with the following objectives:

- To develop collaborative and teamwork skills among students.
- To enhance critical thinking and problem-solving abilities.
- To encourage effective communication and group participation.
- To provide practical approaches for solving real-world engineering problems.

Ms. Vaishnavi Jadhav conducted an engaging and interactive workshop focusing on the importance of collaborative learning and collective decision-making. The session highlighted how teamwork and effective communication contribute to successful problem-solving in academic and professional environments. Various activities and group exercises were conducted to encourage students to think creatively, share ideas, and work together to solve challenges. The resource person explained different problem-solving techniques and strategies that can be applied in engineering projects and everyday situations.

The workshop provided students with opportunities to participate actively, exchange viewpoints, and learn from their peers. Through practical examples and interactive discussions, students gained valuable insights into the significance of collaboration in achieving common goals. The workshop witnessed enthusiastic participation from Second Year Electronics and Telecommunication Engineering students. The interactive activities and discussions encouraged students to actively engage with the resource person and their peers, making the session highly effective and enjoyable.

The One-Day Workshop on **"Collaborative Problem Solving"** was highly informative, interactive, and beneficial for the students. The session successfully achieved its objectives by promoting teamwork, communication, and problem-solving skills among participants. Students appreciated the practical

approach and valuable insights shared during the workshop. The Department of Electronics and Telecommunication Engineering expresses its sincere gratitude to **Ms. Vaishnavi Jadhav, Senior Ignator, Agastya Foundation and team**, for conducting the workshop and sharing her expertise with the students. The department also thanks the management, Principal, faculty members, and students for their support and active participation in making the event successful.
